An Introduction to English Language Koenraad Kuiper, W. Scott Allan, 2010-08-15 How does the English language work If you are interested in discovering the answer to this question then An Introduction to English Language is the ideal place to start Written in a clear lively and easy to follow style this introductory textbook is based around three core topics of linguistic study WORD English words how they fit into sentences their internal structure their meaning and how

they make up vocabularies for various purposes SOUND the sound systems of English its phonetics and phonology and English intonation and stress patterns SENTENCE English sentence structure and introductory English grammar Packed with classroom tested examples and graded exercises the third edition of this popular book features a multimedia companion website containing Powerpoint slides mini lectures quizzes and downloadable audio files to aid study new material on language variation and change including more examples of regional dialects and extra material on New Englishes a new introduction to linguistics as a subject familiarizing students with key issues and topics Carefully designed as a course book for either group or individual study An Introduction to English Language remains an essential text for students and teachers of English language and introductory linguistics *The English Language* Winthrop N. Francis,1975 **The English Language** Winthrop Nelson Francis,1965 **An Introduction to the History of the English Language** Georges Bourcier,1981 **The English Language** Frederick Manley,William Nicholas Hailmann,1902 The History of English Stephan Gramley,Vivian Gramley,2024-05-31 The History of English An Introduction provides a chronological analysis of the linguistic social and cultural development of the English language from before its establishment in Britain around the year 450 to the present Each chapter represents a new stage in the evolution of the language all illustrated with a rich and diverse selection of primary texts The book also explores the wider global course of the language including a historical review of English in its pidgin and creole varieties and as a native and or second language in the Caribbean Africa Asia and Australasia The third edition carefully revised and updated throughout includes chapter introductions and conclusions to assist in orientation plus additional marginal references throughout the addition of 21 timelines often running from Old English to Present Day English and focusing on a variety of features a new focus on the relevance of change for and in Present Day English discussions on the role and image of women the in visibility of social classes and regional variation in English material on bilingualism code switching and borrowing and on the effects of the social media on language use over 90 textual examples demonstrating linguistic change and over 100 figures tables and maps including 31 colour images to support and illuminate the text updated online support material including brief introductions to Old and to Middle English further articles on linguistic historical and cultural phenomena which go beyond the scope of the book additional sample texts exercises and audio clips With study questions as well as recommendations for further reading and topics for further study The History of English is essential reading for any student of the English language and will be of relevance to any course addressing the origins and development of the English language *An Introduction to English Language* Koenraad Kuiper,W. Scott Allan,2016-11-17 Back for its fourth edition this core textbook offers a clear and engaging introduction to the building blocks of the English language namely its words sounds and sentences Assuming no prior knowledge this text combines accessibility with depth and is an ideal companion for anyone with an interest in how language works Written by experienced and respected lecturers in the field this book strips the subject down to its bare bones and offers detailed and clear explanations

of key topics and theories including variation in vocabularies the International Phonetic Alphabet and relevance theory in relation to pragmatics This is essential reading for undergraduate students of English Language and Linguistics It is also a valuable resource for students on ESOL courses and teachers of English as a second or foreign language It can be used as a stand alone introductory text or as a precursor to more advanced material

The English Language Simon Horobin, 2018-01-12 The English language is spoken by more than a billion people throughout the world But where did English come from And how has it evolved into the language used today In this Very Short Introduction Simon Horobin investigates how we have arrived at the English we know today and celebrates the way new speakers and new uses mean that it continues to adapt Engaging with contemporary concerns about correctness Horobin considers whether such changes are improvements or evidence of slipping standards What is the future for the English language Will Standard English continue to hold sway or we are witnessing its replacement by newly emerging Englishes ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

An Introduction to the History of the English Language Percy Goronwy Thomas, 1920 English around the World Edgar W. Schneider, 2020-07-30 The global spread of English has had widespread linguistic social and cultural implications affecting the lives of millions of people around the world This textbook provides a lively and accessible introduction to world Englishes describing varieties used in regions as diverse as America the Caribbean Australia Africa and Asia and setting them within their historical and social contexts Students are guided through the material with chapter summaries discussion questions and exercises and a comprehensive glossary helping them to understand different varieties of English The second edition is substantially updated including new sections on English as a Lingua Franca blurring boundaries and research methods and resources The book is accompanied by a useful website containing textual and audio examples of the varieties introduced in the text Providing essential knowledge and skills for those embarking on the study of world Englishes this is a timely update of the leading introduction to the subject

American English Zoltan Kovecses, 2000-09-26 This book is a cultural historical rather than purely linguistic introduction to American English The first part consists of a general account of variation in American English It offers concise but comprehensive coverage of such topics as the history of American English regional social and ethnic variation variation in style including slang and British and American differences The second part of the book puts forward an account of how American English has developed into a dominant variety of the English language It focuses on the ways in which intellectual traditions such as puritanism and republicanism in shaping the American world view have also contributed to the distinctiveness of American English

A Practical Grammar of the English Language: Introductory Lessons Leonard Bliss, 1840 A Dictionary of the English Language ... to which are Prefixed an Introductory Dissertation

on the Origin, History, and Connection of the Languages of Western Asia and of Europe Noah Webster, 1831 The Emergence and Development of English William A. Kretzschmar (Jr.), 2018-10-25 Presents a beginner's introduction to the history of the English language incorporating complex systems the scientific model behind human speech Introductory Readings on the English Language Richard Braddock, 1962 **How English Works** Anne Curzan, Michael Adams, 2012-01

ALERT Before you purchase check with your instructor or review your course syllabus to ensure that you select the correct ISBN Several versions of Pearson's MyLab check with the seller before completing your purchase Used or rental books If you rent or purchase a used book with an access code the access code may have been redeemed previously and you may have to purchase a new access code Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code Check with the seller prior to purchase A major introductory language linguistics textbook written specifically for English and Education majors this book is an engaging introduction to the structure of English general theories in linguistics and important issues in sociolinguistics This accessible text provides more extensive coverage of issues of particular interest to English and Education majors Tapping into our natural curiosity about language it invites all students to connect academic linguistics to everyday use of the English language and to become active participants in the construction of linguistic knowledge The second edition provides updated examples of language change including new slang and other word coinages grammatical developments and sound changes as well as new research findings on American dialects language acquisition language evolution eggcorns English and the Internet and much more *The Earliest English* Chris McCully, Sharon Hilles, 2016-01-28 The Earliest English provides a student friendly introduction to Old English and the earliest periods of the history of the English Language as it evolved before 1215 Using non technical language the book covers basic terminology the linguistic and cultural backgrounds to the emergence and development of OE and the OE vocabulary that students studying this phase of the English language need to know In eight carefully structured units the authors show how the vocabulary of Old English contains many items familiar to us today how its characteristic poetic form is based on a beautiful and intricate simplicity how its patterns of word building and inflectional structure are paralleled in several present day languages and how and why the English language and its literature continued to change so that by the mid 12th century the English language looks more like the English that we are familiar with in the 21st century Features of the book include the provision of accessible guides to some important problem topics of classical OE stimulating cross linguistic comparisons e.g the pronoun system of OE as compared with the pronoun system of present day Dutch cleverly laid out translation exercises with structural help in the form of selective glossaries careful division into eight units designed for both classroom use and self study Written in a clear and accessible manner The Earliest English provides a comprehensive introduction to the evolution of Old English language and literature and will be an invaluable textbook for students of English Language and Linguistics
