Timely Meditations:

Timely Meditations Leslie Paul Thiele, 2014-07-14 Focusing on the concept of freedom Leslie Paul Thiele makes Heidegger's philosophical works speak directly to politics in a postmodern world Neither excusing Heidegger for his political sins nor ignoring their lesson Thiele nonetheless refrains from polemic in order creatively to engage one of the greatest philosophers of our time The product of this engagement is a vindication of a democratic and ecological politics firmly grounded in philosophic inquiry Using Heidegger's understanding of freedom as a point of departure *Timely Meditations* lays out the philosophic and political nature and potential of freedom in thought speech and deed This disclosive freedom is contrasted to both modern positive and negative and postmodern Nietzschean and Foucaultian variations The result is an original and provocative study that challenges our present understanding of liberty while underlining dangerous collusion with the contemporary forces of technology *Timely Meditations* marks an increasingly rare achievement today For unlike many theorists who attempt to steer a course into the world of postmodern politics Thiele does so without forsaking philosophic foundations and without abandoning practical hopes and tasks for rhetorical diversions Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

[Disappointment](#) Jarrett Zigon, 2017-11-28 Increasingly anthropologists political theorists and philosophers are calling for imaginative and creative analyses and theories that might help us think and bring about an otherwise *Disappointment* responds to this call by showing how collaboration between an anthropologist and a political movement of marginalized peoples can disclose new possibilities for being and acting politically Drawing from nearly a decade of research with the global anti drug war movement Jarrett Zigon puts ethnography in dialogue with both political theory and continental philosophy to rethink some of the most fundamental ontological political and ethical concepts The result is to show that ontological starting points have real political implications and thus how an alternative ontological starting point can lead to new possibilities for building worlds more ethically attuned to their inhabitants

Doing Time Rita Felski, 2000-09 In *Doing Time* Rita Felski argues that it makes little sense to think of the modern and postmodern as antithetical ideas Rather we need a historical perspective attentive to the leaky boundaries between different times as well as the many cultural and political differences within a single time

Materialist Philosophy of History Branko Mitrovic, 2020-07-08 What does it mean for our understanding of history if we assume that everything is physical and that no immaterial entities forces or phenomena exist *A Materialist Philosophy of History A Realist Antidote to Postmodernism* examines the implications of a materialist worldview in contemporary philosophy of history Materialism has wide ranging

consequences for historical research as well as for the credibility of various conceptions of the historical past Branko Mitrovic shows how these implications pertain both to the nature of social institutions and the capacities of historical figures to decide act acquire beliefs and communicate and to the methodology of historical research and problems such as the interpretation and the translation of historical documents A materialist view also entails rejecting the view that forces such as culture language or society can construct physical reality or that the historical past is constructed through the work of the historian This book examines these consequences and presents a comprehensive materialist perspective on historical research and the understanding of the historical past *Entanglements in the Age of the Posthuman*, 2025-12-18 This groundbreaking volume delves into critical posthumanism exploring the dissolution of traditional boundaries between humans and nonhuman entities Challenging the autonomy of the human subject it presents a radical rethinking of subjectivity emphasizing interconnectedness and co existence Drawing on key movements like post structuralism feminism queer theory and decolonial studies this book invites readers to reconsider the hierarchies of matter and agency advocating for a more inclusive post anthropocentric perspective As the concept of becoming with redefines the political and philosophical landscape this work on dynamic entanglements offers fresh insights into the future of human and nonhuman relations in both theory and artistic practice Heidegger and the Question of National Socialism Bernhard Radloff, 2007-01-01 The question of being was integral to the philosophy of Martin Heidegger 1889 1976 and was a large factor in the development of his political and aesthetic thought In Heidegger and the Question of National Socialism Bernhard Radloff investigates the philosophical foundations and cultural context of Heidegger s conception of being focusing on the idea of gestalt as the guiding thread that determined German conservative thought throughout the 1930s In doing so Heidegger s philosophy is related to the whole of German society at the time a society in which gestalt was the guiding light and the ultimate aspiration of artists technicians and politicians Throughout the book Heidegger s own understanding of gestalt is used as a window to his thoughts on being which is conceived of as incorporated finite and historically situated in beings Concentrating on the years between 1933 and 1942 Radloff seeks to capture the response of Heidegger s philosophy to National Socialism examining key works and relating them to the literature of the German conservative revolution Heidegger and the Question of National Socialism is therefore a thorough treatment of his political philosophy as it relates to the question of being Adopting both a historical and phenomenological approach to the subject this book is equally an examination of German conservative ideology a critique of technological determinism and a study of one of the most controversial philosophers of twentieth century **Catholic World**, 1923 Timely Meditations, Vol. 1 Alberto Perez-Gomez, Saidye Rosner Bronfman professor Director of the History and Theory of Architecture Program Alberto Perez-Gomez, 2016-07-05 This remarkable collection brings together a selection of essays by Alberto P rez G mez originally published in diverse periodicals and as chapters in books over a period of twenty five years The essays have been revised and

updated by the author sometimes substantially modified to reflect more accurately the state of contemporary questions in the field of architecture While the writing deliberately blurs the edges of history and theory the essays have been collected in two separate volumes the first focusing on architectural theories and practices both historical and recent and the second on more general aspects of architectural philosophy The untimeliness of these texts on architecture history and philosophy is a welcome departure from today's incessant demand for timely innovation These articles engage with central and marginal figures from architecture's past converse with contemporaries who hold a sympathetic stance and engage diverse philosophical positions The essays draw from other fields of inquiry philosophy theatre literature art dance and neuroscience to name a few It is through these interdisciplinary conversations and the questions they generate that the works manifest their full power rendering visible many currently ignored issues Against some of our most assured convictions and protocols P rez G mez consistently seeks meaningful sites in which to re negotiate the architect's task of imagining the world otherwise This is done without affectation or pretense acknowledging the task's difficulty in our late modern world By joining past present and future the texts offer their gift the hopeful shaping of a time to come This remarkable collection is a testament to three decades of thinking whose untimeliness will challenge and reward readers placing the search for dwelling belonging and love at the heart of architecture
