Virtual Collaboration Ideas

Magid Igbaria, Margaret Tan

Virtual Collaboration Ideas:

Designing Boundary Objects for Virtual Collaboration Marc Marheineke, 2016-09-19 Marc Marheineke explores the phenomenon of boundary objects in the process of virtual collaboration Virtual collaboration is an interactive act that connects jointly and voluntarily collaborating individuals that are electronically linked and he examines these communities from different perspectives All communities are characterized by their aim to conduce to shared understanding through a purposeful use of boundary objects These objects are artefacts that serve two or more community members to establish collaboration This book shows in a design oriented process how and when to use these boundary objects for virtual collaboration

Virtual Collaborative Writing in the Workplace: Computer-Mediated Communication Technologies and Processes Hewett, Beth L., Robidoux, Charlotte, 2010-06-30 This book investigates the use of computer mediated communication technologies and collaborative processes to facilitate effective interdependent collaboration in writing projects especially in virtual workplace settings Provided by publisher

Professional Learning Communities at Work TM and Virtual Collaboration Richard DuFour, Casey Reason, 2015-07-24 Now is the time to transform education By combining the capacities of the PLC at WorkTM process and powerful technology tools teams of educators can meaningfully modify teaching and learning Realize the potential of virtual collaboration to support the PLC process and discover research based strategies collaborative teams can implement to meet contemporary challenges and reach sustained levels of deeper learning

Sustaining Creative Collaboration in Student Virtual Teams in Higher Education: Resources, Norms and Protocols, and Continual Assessment and Learning Nemiro, Jill E., 2025-07-23 As remote and hybrid work continue to define the modern professional landscape the ability to collaborate effectively in virtual teams has become an essential skill The shift toward non routine knowledge based work demands high levels of creativity adaptability and digital fluency Higher education institutions play a pivotal role in preparing students for this new reality by offering opportunities to build and practice virtual teamwork skills Equipping students with these competencies not only enhances their career readiness but also helps them contribute more effectively to innovative distributed work environments As the future of work becomes increasingly digital fostering virtual collaboration skills is crucial for individual success and organizational sustainability

Sustaining Creative Collaboration in Student Virtual Teams in Higher Education Resources Norms and Protocols and Continual Assessment and Learning provides an in depth understanding of how to implement sustain and assess academic courses and business training experiences that can offer students and employees hands on experiences to develop virtual teamwork skills It seeks to nurture students professional development by enhancing their creativity while working in virtual teams and to provide faculty with relevant knowledge expertise and case examples to assist them in implementing and assessing effective virtual team learning experiences in their courses Covering topics such as topics this book is an excellent resource for students educators researchers academicians educational leaders instructional designers technology instructors

human resource managers business leaders and more *109 Ideas for Virtual Learning* Judy Breck,2006 109 IDEAS For Virtual Learning reveals the online knowledge venue that today s generation uses to learn while playing along at school to receive promotions diplomas and degrees Calling that venue the virtual knowledge ecology Judy Breck describes the networking of open content for learning online where knowledge is fresher authoritative and more compelling than at school In this book she provides her eyewitness account of the decade long ongoing cascade of what is known by humankind from traditional resources into the Internet and explains the network mechanisms that interconnect the knowledge once it gets online Breck says the resulting virtual knowledge ecology is causing students worldwide literally to study from the same virtual page The author forewarns readers to expect emerging good news as the virtual knowledge ecology opens the way for a global golden age of education in which students learn more and teachers are respected professionals Breck contends that literacy and learning follow naturally from the Internet interfacing what humankind knows A boy or girl s hands can now hold a wireless device mirroring enlightenment from a new virtual venue into his or her mind

The Perception of Virtual, Inter-Team Collaboration Within a Large, Multi-Team Project Lisa Frigge,2020-10-27 Master s Thesis from the year 2018 in the subject Business economics Business Management Corporate Governance grade 1 3 Lund University language English abstract Our research purpose is twofold and comprises theoretical and empirical purposes The purpose of our research results in the following research question How do employees experience virtual inter team collaboration within a large multi team project Many scholars have investigated team collaboration either without specifically differentiating intra and inter team collaboration or focusing only on intra team collaboration Intra team collaboration means collaboration taking place within the context of one team whereas inter team collaboration describes the interaction process between several teams Thus in the field of organizational research we need to advance our knowledge on inter team collaboration as it is a way of working that becomes more and more popular and widespread Our practical aim is to understand collaboration in such emerging business contexts With more resources available including technological tools for individual actors and teams new ways of collaboration become apparent We want to contribute to a better understanding of collaboration in the modern sense by investigating how inter team collaboration is experienced by employees working in the same organization We especially want to highlight that although the individuals under study are separated into different teams they still belong to the same organization and work towards a common goal We believe that being assigned to different teams while still being part of the same organization is especially interesting to investigate We do this by studying the collaboration between different teams in a large financial services company called Beneal Bank the company name has been changed The studied organization resembles one of the previously illustrated new organizational designs More than 80 interdependent teams including geographically dispersed team members work on an intra organizational project to develop a new core banking system Thus our study site has certain characteristics that justify it as a site in which new organizational designs are applied

and in which new ways of collaboration are required Firstly the organization employs an Agile Methodology implying that close and continuous collaboration is needed between different interdependent teams

The Virtual Workplace Magid Igarria, Margaret Tan, 1998 The current merging of computer and communication technologies is facilitating the trend toward the virtual workplace As the growth in the virtual workplace accelerates organizations face new challenges to cope with their new organizational structure The Virtual Workplace explores the forces that are driving this phenomenon and the consequential issues and problems that will influence the globalization of the virtual workplace by offering a wide and rich array of factors such as social issues legal concerns and performance compensations *Design Computation, Collaboration, Reasoning, Pedagogy* Patricia G. McIntosh, 1996 *THE Journal*, 2000

Collaborative Geographic Information Systems Shivanand Balram, Suzana Dragičević, 2006 This book provides a comprehensive treatment of collaborative GIS focusing on system design group spatial planning and mapping modeling decision support and visualization and internet and wireless applications Provided by publisher

Creating High-tech Teams Clint A. Bowers, Eduardo Salas, Florian Jentsch, 2006 A helpful resource for industrial organizational psychologists and others working to make teams more effective through technology Leaders in science and industry explore the state of the art in technology and teamwork They provide the reader with a review of the most prevalent tools and how to apply them in a number of industries

Virtual Worlds and Multimedia Nadia Magnenat-Thalmann, Daniel Thalmann, 1993-09-14 This volume covers both theoretical and practical aspects of virtual reality and its relationship with multimedia It presents advanced research and surveys on such topics as image compression HDTV synthetic TV and actors 3D copying and interaction electronic books and architectural space Most of the text was presented at a workshop held in October 1993 at the U of Geneva Switzerland Includes 16 color plates Annotation copyright by Book News Inc Portland OR
