Life Skills for All Learners Antarina S. F. Amir, Thomas R. Guskey, 2024-01-11 The clearest guide yet to preparing today's students to succeed in a rapidly changing and increasingly complex world. Information societies and life in general require a host of skills beyond those found in the traditional school curriculum. Yet nearly a quarter of the way through the 21st century, educators are still looking for clarity on what these skills are and a comprehensive whole school model that explains how to teach and develop them, how to observe and assess them, and how to report learning progress to students, parents, and families. That wait is over. In *Life Skills for All Learners*, authors Antarina S. F. Amir and Thomas R. Guskey, collaborating with a team of practitioner colleagues at HighScope Indonesia Institute, share a comprehensive classroom-tested framework for teaching, assessing, and reporting eight of education's new essential skills: Meta Level Reflection, Expert Thinking, Creativity, and Innovation, Adaptability, and Agility, Audience-Centered Communication, Synergistic Collaboration, Empathetic Social Skills, and Ethical Leadership. Packed with targeted learning activities, grade- and subject-inclusive examples, and skill-specific rubrics mapping a continuum of deliberate development from the earliest elementary years through high school graduation, this resource provides teachers, school leaders, and curriculum developers with the practical advice and inspirational guidance they need to set up all students for lasting success.

AI Made Easy - A Beginner's Guide for Non-Tech Workers Douglas Tonks, 2026-01-30 *AI Made Easy: A Beginner's Guide for Non-Tech Workers* opens the door to a world that often feels intimidating, overhyped, or reserved for tech people. This ebook strips away the jargon and replaces confusion with clarity, showing everyday professionals how AI can simplify tasks, spark creativity, and boost productivity without requiring any coding knowledge. It's a friendly, practical starting point for anyone who wants to understand what AI actually does, how to use it responsibly, and how to integrate it into real work, from emails and reports to brainstorming and problem solving. Whether you're curious, cautious, or completely new to the topic, this guide gives you the confidence to explore AI tools with ease and make them work for you.

Beginning Self-Study Research Brandon M. Butler, Kristen H. Gregory, Mark M. Diacopoulos, Angela P. Branyon, 2026-01-07 This book is an essential guide for novice and experienced self-study researchers, offering practical insight into the lived experience of conducting self-study research. Unlike abstract methodologies, self-study is embodied through practice and often learned collaboratively. Because it resists traditional instruction, newcomers frequently ask S-STEP researchers: How does one learn self-study? This recurring question highlights the need for accessible frameworks and processes to support emerging scholars. By addressing this gap, the book equips readers with foundational tools to navigate the complexities of self-study and fosters deeper understanding of how to learn through reflective inquiry and shared exploration. Each chapter is supported by existing literature on self-study research, as well as examples from the authors' own experiences and the experiences of others. The inclusion of prompts, activities, and recommended resources in each chapter enhances the learning process. With this book as a guide, we hope that S-STEP researchers will individually and

collaboratively learn how to effectively conduct self study research and contribute meaningfully to the scholarly community by making their self study research public **Fostering Critical Pedagogy in the ELA Classroom** Meghan E.

Barnes, Lucy Arnold, Heather Coffey, 2026-04-07 This book presents the story of the Critical English Educator Collaborative CEEC a teacher guided informal learning community focused on supporting prospective and practicing English language arts ELA teachers understandings of critical pedagogy in order to demonstrate and foster critical pedagogy among ELA teachers Over the course of one academic year three ELA teacher educators at a large public university in the southeastern US guided a cohort of novice ELA teachers in monthly virtual conversations relative to the challenges facing public school teachers today Prior to these monthly meetings participants engaged with a text book chapter journal article and podcast related to the teaching of English in middle and secondary schools post Covid Throughout the year participants challenged and supported one another on social political and curricular issues This book invites readers into the context for CEEC and shares the experiences of ELA teachers engaging in critical pedagogy while offering pathways for those interested in developing this kind of collaborative community Because CEEC operates in a liminal space it is a transformational place where participants can be vulnerable and feel safe to share their concerns experiences and successes without fear of retribution from school administrators parents or faculty Thus CEEC functions as a powerful space for prospective and practicing teachers to learn from and with one another and offers insight into how this unique collaborative relationship fosters collective growth This book gives prospective teachers practicing teachers and teacher educators in English language arts education the tools to engage in the process of becoming critical educators **PMP Exam Prep For Dummies** Crystal J.
