Training School for Nurses, 1915 *John Macmurray's Religious Philosophy* Esther McIntosh, 2016-05-06 Recent dissatisfaction with individualism and the problems of religious pluralism make this an opportune time to reassess the way in which we define ourselves and conduct our relationships with others The philosophical writings of John Macmurray are a useful resource for performing this examination and recent interest in Macmurray's work has been growing steadily A full scale critical examination of Macmurray's religious philosophy has not been published and this work fills this gap sharing his insistence that we define ourselves through action and through person to person relationships while critiquing his account of the ensuing political and religious issues The key themes in this work are the concept of the person and the ethics of personal relations **Collections of Material in English and European History and Subsidiary Fields in the Libraries of the United States** Wilbur Henry Siebert, 1905 **A Purdue Icon** James L. Mullins, 2019-07-15 The former Purdue Power Plant HPN with its iconic smoke stack and the attached Engineering Administration Building ENAD at the very heart of campus played important roles for most of the twentieth century To many Purdue students and alumni the smoke stack not only symbolized the emphasis at Purdue on technology but also provided a visible marker for the Purdue campus The smoke stack was lovingly referred to by many as Purdue's finger to the world Amid controversy the smoke stack was demolished in the early 1990s when the Purdue Clock Tower was constructed to locate the campus on the landscape *A Purdue Icon: Creation, Life and Legacy* is an edited volume that speaks to the history of the Power Plant from the initial need for increased power and heat to meet a growing campus demand and its Romanesque architecture that allowed it to fit contextually on the campus to the people who worked to bring heat and power to the campus by keeping the boilers up and the students who

experienced the principles and applications of mechanical engineering through active learning This book tells the story of the transition to alternative power and heat sources at the University the decommissioning of the Power Plant the controversy about what was to be done with this important site at the heart of the campus and the challenges associated with the Power Plant s potential reuse or demolition The unique problems faced with demolishing a contaminated building in the middle of a major research university campus are insightfully explored before introducing the Thomas S and Harvey D Wilmeth Active Learning Center a potential new Purdue icon *The African American Struggle for Library Equality* Aisha M.
