Communicating the ARSOF Narrative and Setting the Course to 2035 provide the Nation with the world's most capable Army Special Operations Forces ever. ARSOF Soldiers excel across the broad spectrum of operations in the most demanding complex and uncertain environments imaginable. We take the fight to the enemies of our Nation. Our success rests upon the invincible will, utmost professionalism, and exceptional competence of our highly trained Men and Women. SOF operations are inherently joint, and as the Army's Special Operations capability, we embrace our critical role within USSOCOM for keeping the Nation safe. To meet current and future challenges, we must invest in the best capabilities, optimize our formations for efficiency and effectiveness, and care for our people and their families. We must continue to evolve to maintain our competitive advantage over any adversary. We will enhance our lethality, strengthen alliances and partnerships, refine joint force interoperability, and expand relationships as we employ our capabilities to win both in competition and in open conflict. This compilation includes a reproduction of the 2019 Worldwide Threat Assessment of the U.S. Intelligence Community. USASOC 2035 provides facts and details for use by members of the force when communicating the ARSOF narrative in engagements with joint force commanders, interagency partners, and other audiences worldwide. It also provides guidance for the further development of ARSOF institutional and operational capabilities needed to counter future threats across the spectrum of conflict, especially in gray zones between peace and overt war. It presents objectives for developing future capabilities that will move ARSOF from the force of today to the force of tomorrow. For more than 60 years, ARSOF have served at the tip of the spear in defense of the nation. Today, the U.S. Army Special Operations Command represents a force of approximately 33,000 personnel, and more than half of the nation's SOF. ARSOF elements consistently fill more than 60 percent of all U.S. SOF deployments worldwide, with ARSOF Soldiers deployed in more than 70 countries on any given day of the year, delivering strategic value to the nation through four complementary capabilities: the Pillars of ARSOF Capability—An Indigenous Approach to Operations, Precision Targeting Operations, Developing Understanding, and Wielding Influence, and Crisis Response. They are employed throughout the operational spectrum and across all campaign phases, including interagency or Coalition-led campaigns and operations. Together, the Pillars of ARSOF Capability provide options to shape or prevent outcomes in support of our national interests. These capabilities, coupled with tailorable mission command nodes and scalable force packages that are low signature and employ a small footprint, are particularly suited for employment in politically sensitive environments.
