The Talk of the Town Ann C. Dean, 2007-07 This study argues that in eighteenth century Britain the public sphere was a figure of speech created by juxtaposed images of more limited local and particular arenas of discussion In letters newspapers and books eighteenth century British writers described the public qualities of three different spaces court coffeehouse and meeting Writers referred to the proliferation of these social spaces describing multiple coffeehouses drawing rooms and meetings among which the customary language of each was circulated in repeated conversations and printed newspapers These multiple references created a set of interrelated competing and mutually defining metaphors and figurations figurative public spheres Identifying the relations between these metaphors requires work in an archive that crosses the boundaries between court coffeehouse and Parliament and between manuscript and print By following figures from one medium to another and by examining the contexts in which they were used it is possible to see a social imaginary emerging from the juxtapositions between them Ann C Dean is Associate Professor of English at the University of Southern Maine

Eighteenth-Century English Raymond Hickey, 2010-06-24. The eighteenth century was a key period in the development of the English language in which the modern standard emerged and many dictionaries and grammars first appeared. This book is divided into thematic sections which deal with issues central to English in the eighteenth century. These include linguistic ideology and the grammatical tradition, the contribution of women to the writing of grammars, the interactions of writers at this time, and how politeness was encoded in language, including that on a regional level. The contributions also discuss how language was seen and discussed in public and how grammarians, lexicographers, journalists, pamphleteers, and publishers judged on going change. The novel insights offered in this book extend our knowledge of the English language at the onset of the modern period.
