Speedbumps And Potholes:

Detection of Potholes and Speedbumps by Monitoring Front Traffic Karthikeyan Nagarajan,Amit Jindal,2019 This article proposes a novel method for detecting potholes and speed bumps by monitoring the front traffic when the road is not visibly seen The existing camera based systems in the car directly scan the road surface and estimate the road profile The main disadvantage of the current technology is that it is not possible to detect the road profile when the road is not clearly visible This can happen in situations when roads are waterlogged or have occluded bumps and in low light conditions In this article the proposed method for detecting potholes or speed bumps by monitoring the vertical movement of the front traffic can enhance the existing algorithm by overcoming the abovementioned disadvantage However the method works only when there is traffic ahead of the system vehicle The method makes level 3 and above autonomous driving more robust in terms of comfort and safety by estimating the road profile in the abovementioned road conditions The method uses an object localization algorithm and optical flow to determine the motion vectors of vehicles The histogram of motion vectors in the vertical direction is calculated and its weighted average is obtained for each frame As a feature extraction process fast Fourier transform FFT is applied to the fixed size queue buffer containing weighted average values to obtain the frequency spectrum which is used as a feature set for classification After feature selection the support vector machine SVM is used to classify whether a pothole road bump has been detected Apart from hardware video stabilization the same classification procedure is applied to static objects in the frame and camera egomotion is detected This is done to avoid false positives due to camera movement when the system vehicle is moving over a pothole or a speed bump The developed algorithm is validated with the manually collected dataset and the results and the analysis are presented here Abstract page 1

Sensors and Instrumentation, Aircraft/Aerospace, Energy Harvesting & Dynamic Environments Testing, Volume 7 Chad Walber,Matthew Stefanski,Steve Seidlitz,2025-08-07 Sensors and Instrumentation Aircraft Aerospace and Energy Harvesting Volume 7 Proceedings of the 39th IMAC A Conference and Exposition on Structural Dynamics 2021 the seventh volume of nine from the Conference brings together contributions to this important area of research and engineering The collection presents early findings and case studies on fundamental and applied aspects of Shock Vibration Aircraft Aerospace Energy Harvesting Dynamic Environments Testing including papers on Alternative Sensing Acquisition Active Controls Instrumentation Aircraft Aerospace Aerospace Testing Techniques Energy Harvesting *Emerging Research in Computing, Information, Communication and Applications* N. R. Shetty,L. M. Patnaik,H. C. Nagaraj,Prasad N. Hamsavath,N. Nalini,2021-11-15 This book presents the proceedings of International Conference on Emerging Research in Computing Information Communication and Applications ERCICA 2020 The conference provides an interdisciplinary forum for researchers professional engineers and scientists educators and technologists to discuss debate and promote research and technology in the upcoming areas of computing information communication and their applications The book discusses these

emerging research areas providing a valuable resource for researchers and practicing engineers alike **Proceedings of International Conference on Recent Trends in Machine Learning, IoT, Smart Cities and Applications** Vinit Kumar Gunjan, Jacek M. Zurada, 2020-10-17 This book gathers selected research papers presented at the International Conference on Recent Trends in Machine Learning IOT Smart Cities Applications ICMISC 2020 held on 29-30 March 2020 at CMR Institute of Technology Hyderabad Telangana India. Discussing current trends in machine learning, Internet of things and smart cities applications with a focus on multi-disciplinary research in the area of artificial intelligence and cyber-physical systems, this book is a valuable resource for scientists, research scholars, and PG students wanting to formulate their research ideas and find the future directions in these areas. Further, it serves as a reference work for anyone wishing to understand the latest technologies used by practicing engineers around the globe.

IoT Based Control Networks and Intelligent Systems P. P. Joby, Marcelo S. Alencar, Przemyslaw Falkowski-Gilski, 2023-11-27 This book gathers selected papers presented at the International Conference on IoT Based Control Networks and Intelligent Systems ICICNIS 2023 organized by the School of Computer Science and Engineering REVA University Bengaluru, India, during June 21-22, 2023. The book covers the state-of-the-art research insights on the Internet of things (IoT) paradigm to access, manage, and control the objects, things, and people working under various information systems and deployed under a wide range of applications like smart cities, healthcare industries, and smart homes.

From Here to There Dennis Lee, 2015-07-28 When you look in the mirror, what do you see: a person who truly believes he/she is on the right path, or one struggling daily to find a sense of identity? More importantly, how do you see God as you seek the purpose for your life: as your back pocket Lord or as your personal guide? For some, they may feel they are on the right path but have drifted away from discerning and understanding God's will for them. This inspired pastor and author, Dennis Lee, established a meaningful resource for readers wanting to grow in their relationship with God in his new Christian discipleship book, *From Here to There: A Journey to Spiritual Transformation*, part of his *Spiritual Formation* series. As an A through Z roadmap on discipleship, Dennis offers readers a biblically sound guide to familiarize readers to biblical principles of what it's like to be a follower of Jesus Christ, being found in His likeness. Each chapter clarifies this developing relationship with God, established when you accept Jesus as your Savior and Lord, and furthered through changing how you approach living this life in Christ. Pastor Lee takes the reader along this narrow road described by Jesus, looking at a Christian's true identity when pursuing God's presence and becoming aligned with His will. To make sure his readers stay upon this path, Lee looks at Satan's potholes that damage a person's spiritual transformation, as well as God's speed bumps to help believers slow down and not miss God's promises for their lives. It's a journey to the ultimate destination of Heaven with God, and this guide will help you make the necessary changes and take the required steps to stay upon God's path.

Speedbumps and Potholes Ken Dyer, 2022-09-07 Prayer is the greatest power in the world. It connects us to God, the Source of all that we will ever need in this life. It is also how we explore a life like no other. Through prayer, we are equipped

to deal with the speed bumps and potholes that are inevitably a part of our life outside the Garden of Eden God is the best of all surprises that come into all our lives He knows and loves us more than anyone ever has and wants us to know Him the same way Through prayer that can happen Friends have encouraged me to put these weekly prayers in a book hoping to inspire others to begin conversations with God By so doing they may get a peek into the joyful life that is possible in this post Garden world Maybe you are one If so enjoy the journey even if you hit a pothole occasionally Prayer and perseverance will make it all worthwhile

New Technologies, Artificial Intelligence and Smart Data Hassan Badir, Mohamed Tabaa, Ladjel Bellatreche, Marjan Mernik, Boualem Benatallah, Rachida Fissoune, 2026-03-05 This book constitutes the revised selected papers of the 12th International Conference of Innovation and New Trends in Information Technology INTIS 2024 held in Tangier Morocco during May 30 June 1 2024 The 23 full papers and 15 short papers included in this book were carefully reviewed and selected from 82 submissions They focus on the main layers of data enabled systems applications data source layer network layer data layer learning layer and reporting layers while taking into account non functional properties such as data privacy security and ethics

TourBook, 2005 Arborist News, 1998 *On the Edge* Brian Bagnall, 2006 This book tells the story of Commodore through first hand accounts by former Commodore engineers and managers Reliving the early years of an icon in the personal computer revolution turns out to be a fascinating and improbably hilarious journey This gripping tale of ambition greed and inspired engineering gives readers a front row seat at the dawn of the personal computer Engineers and managers relate their experiences through personal first hand

accounts vividly recalling the most important moments of Commodore's entry into computers in 1976 until its demise in 1994. The Commodore years are tumultuous owing to their volatile founder Jack Tramiel. He pushes his team to extreme limits demanding that they almost kill themselves to meet his lofty expectations. Against all odds his engineers deliver more color, more character and more value than either Apple or IBM. While other companies receive more press, Commodore sells more computers. They cut a path of destruction through the competition knocking out Sinclair, Tandy, Texas Instruments and Atari and almost mortally wounding Apple. Unfortunately, Tramiel's cut-throat tactics also prove to be his undoing. He uses up his managers and employees like disposable ink cartridges, producing the highest employee turnover rate in the industry. **A**
