covering thoughts on Divination tentative release date by April 30 2016 This is not a novel This is not a structured text book it is much more useful than such a thing as it is a set of transcripts from 2 months of live feed classes during which I have the opportunity to share the information with the vigor of Collective Consciousness with students who have a desire and a requirement to gather and utilize the information Great learning tools come from this sort of energy Students who study with me have an opportunity to ask questions at the end of each class I have included here one question asked during a class for each section students gain tremendously by utilizing the opportunity to ask questions after class For additional information visit regarding classes <http://www.cagliastrotheironring.com> then click on the CLASS INFO page

**HOW TO USE THIS BOOK**This book is a compilation of transcripts from the Beginner Course It is useful as both a compendium to studying in that particular class structure however it is extraordinarily useful when studying alone The transcripts allow for the flow of information to be absorbed at the desired pace of the student The format is welcoming and includes anecdotal information which is most useful at this point in one's study I write these books with larger than average print and plenty of space as the reader is most likely a person who is experiencing revelations and has a requirement to utilize power to their own advantage That type of person may have an urge to write immediately on this book scribble notes in the side margins I formatted this book for that type of student It is not heavily edited It is a transcript moments of passionate teaching and it is meant to deliver that message to the reader

**Witches, Westerners, and HIV** Alexander Rödlach, 2016-09-17 A witch's curse an imperialist conspiracy a racist plot HIV AIDS is a catastrophic health crisis with complex cultural dimensions From small villages to the international system explanations of where it comes from who gets it and who dies are tied to political agendas religious beliefs and the psychology of devastating grief Frequently these explanations conflict with science and clash with prevention and treatment programs In *Witches, Westerners, and HIV* Alexander Rödlach draws on a decade of research and work in Zimbabwe to compare beliefs about witchcraft and conspiracy theories surrounding HIV AIDS in Africa He shows how both types of beliefs are part of a process of blaming others for AIDS a process that occurs around the globe but takes on local culturally specific forms He also demonstrates the impact of these beliefs on public health and advocacy programs arguing that cultural misunderstandings contribute to the failure of many well intentioned efforts This insightful book provides a cultural perspective essential for everyone interested in AIDS and cross cultural health issues
