The Study of Dialect K. M. Petyt,1980 *Dialectology* Winthrop Nelson Francis,1983 **Advances in the Study of Biblical Hebrew and Aramaic** Benjamin J. Noonan,2020-02-18 Advances in the Study of Biblical Hebrew and Aramaic by Benjamin J Noonan examines issues of interest in the current world of Biblical Hebrew and Aramaic scholarship and their impact on understanding the Old Testament it provides an accessible introduction for students pastors professors and commentators to understand these important issues [An Index to Dialect Maps of Great Britain](#) Andreas Fischer, Daniel Ammann,1991-01-01 The results of the dialect surveys of Great Britain have been published in the form of hundreds of single and collected maps but so far there has been no actual handbook to the charted material The Index to Dialect Maps of Great Britain containing a full introduction an alphabetical word list and a comprehensive bibliography fills this gap As a compendious directory to mapped words it provides not only a lexical compass in a cartographic jungle but serves as a guide to the major dialect surveys Survey of English Dialects Survey of Anglo Welsh Dialects Linguistic Survey of Scotland and the numerous publications they have spawned All atlases as well as the maps in the many individual studies and scattered articles are fully documented Each of the over 2000 lexical entries identifies the original survey by questionnaire number and gives a detailed list of all the references to printed maps in which these words and phrases are contained The present volume will prove an indispensable guide for all researchers in the field of dialectology and linguistic variation enabling its users to gain quick access to the various sources of maps In this way the Index while still a simple work of reference may also furnish the materials for more thorough studies of map making and its implications **A Bibliography of Writings on Varieties of English, 1965-1983** Wolfgang Viereck, Dr Edgar Schneider, Manfred Görlach,1984-01-01 After the growth of English and American dialectology since the 1930 s and the expansion of sociolinguistics since the 1960 s the study of world English has emerged in recent years to join these other disciplines This bibliography is intended to reflect what has been achieved in this area and to serve as an indispensable research tool for further investigations The bibliography is divided into three parts each one is preceded by a preface which explains the procedures followed and each of the sections is followed by an index It classifies the items according to specific areas ethnic groups or similar topics *General Linguistics* ,1982 *The Cambridge History of the English Language: English in Britain and Overseas : origins and development* Richard M. Hogg, Suzanne Romaine, R. W. Burchfield,1992 The Cambridge History of the English Language is the first multi volume work to provide a full account of the history of English Its authoritative coverage extends from areas of central linguistic interest and concern to more specialised topics such as personal and place names The volumes dealing with earlier periods are chronologically based whilst those dealing with more recent periods are geographically based thus reflecting the spread of English over the last 300 years [Subject Guide to Books in Print](#) ,1983 **English World-wide** ,1980 **Choice** ,1981
