Let's talk about Energy: Connecting Quantum Physics to People Susan Barbaro, Julie Bonetti, 2016-06-26 We Love Energy Too Let s talk about Energy Connecting Quantum Physics to People Part 2 Science can explain a lot of things from the laws of physics to the planetary movements There are some things that still elude science and science itself confirms that certain phenomena are beyond the standard laws as we know them The laws of physics exist and are accurate however we cannot determine that they are complete How and what does that say for us here and for how we live What is possible if we open our minds and think beyond the laws of science and physics When you explore science in a new way you can relate it to people and interactions in a new way and come up with interesting hypotheses We are energy workers and find our passion lies within the energy we use People around us and whom we meet want to hear more and learn more We put together a simple three part series to help understand energy more and access your own energy Part 1 We Love Energy Too Let s Talk About Energy Yours and Ours Part 2 We Love Energy Too Let s talk about Energy Connecting Quantum Physics to People Part 3 We Love Energy Too Let s talk about Energy Going Deeper
