The Origins of the Second World War: An International Perspective Frank McDonough, 2011-09-22 Major international experts offer new interpretations of the key aspects of the origins of the Second World War

The Meaning of the Second World War Ernest Mandel, 1986 The very scale of the 1939-45 war has often tempted historians to study particular campaigns at the expense of the wider panorama In this readable and richly detailed history of the conflict the Belgian scholar Ernest Mandel author of the acclaimed *Late Capitalism* outlines his view that the war was in fact a combination of several distinct struggles and a battle between rival imperialisms for world hegemony In concise chapters Mandel examines the role played by technology science logistics weapons and propaganda Throughout he weaves a consideration of the military strategy of the opposing states into his analytical narrative of the war and its results

[The Second World War](#) Joanna Bourke, 2001 The Second World War saw an unprecedented expansion of suffering beyond the frontlines Of the 1 355 000 tons of bombs dropped on Germany for instance

most fell on non military targets and of the 55 million people killed worldwide two thirds were civilians In *The Second World War A People s History* Joanna Bourke uncovers the grim stories of death and destruction lost behind those statistics Using diary entries oral histories poetry and letters home Bourke allows the people that lived and died in the global bloodletting to tell their own stories Soldiers who fought for all sides and in all of the major theatres tell of the fear and horror of combat Partisan fighters recount the daring risks they took and the torments of captivity Civilians describe the anxiety of approaching war their struggle for survival and their despair and helplessness as the war consumed their world Bourke chillingly demonstrates that all of this sorrow and woe was the direct result of political and military decisions on both sides A brief objective synopsis of each campaign in the war clarifies the link between strategic military decisions and the massacre and inhumane treatment of non combatants events now known only by names like Nanking Sobibor Dresden and Nagasaki that was all too common in this brutal war This short engaging history is a poignant testimony to the memory of the innocents lost and a stark reminder that their demise was not inevitable indeed it was often strategically planned and methodically executed

The Story of the Second World War Henry Steele Commager,1945

A People's History of the Second World War Donny Gluckstein,2012-06-14 This history reclaims the Second World War as a global fight from below The vast majority of historical accounts have focused on the regular armies of the allied powers however the often neglected people s militias were crucial not only to the defeat of fascism but also colonialism imperialism and even capitalism Looking at militias in Yugoslavia Greece Poland and Latvia as well as the Warsaw Uprising and anti fascist movements in Germany it presents a different battle fought on different terms Widening its scope to India where an independence movement was shaking an already weak British Empire and onto alternative anti imperialist struggles in Indonesia and Vietnam a global picture of people s resistance is revealed Despite these radical elements the allied governments were more interested in creating a new order to suit their interests and many of these movements were ultimately betrayed However many shook the existing world order to its core

The Grand Alliance Winston S. Churchill,1950-01-01 Dealing with war on a giant scale THE GRAND ALLIANCE focuses on events as Britain after fighting a desperate battle alone was joined in the struggle against the enemy by Soviet Russia and the United States Hitler s invasion of Russia brought to an end a period of almost exactly a year during which Britain and her Empire had stood alone Six months later the United States attacked by Japan joined the war and the Grand Alliance was born It was a momentous turn in the course of the war and Sir Winston Churchill noted United we could subdue everybody else in the world Many disasters immeasurable cost and tribulation lay ahead but there was no more doubt about the end

The British Empire and the Second World War Ashley Jackson,2006-03-09 In 1939 Hitler went to war not just with Great Britain he also went to war with the whole of the British Empire the greatest empire that there had ever been In the years since 1945 that empire has disappeared and the crucial fact that the British Empire fought together as a whole during the war has been forgotten All the parts of the empire joined the struggle and were involved in it from the beginning undergoing huge changes and sometimes suffering great losses as a result The war in the desert the defence of Malta and the Malayan campaign and the contribution of the empire as a whole in terms of supplies communications and troops all reflect the strategic importance of Britain s imperial status Men and women not only from Australia New Zealand and India but from many parts of Africa and the Middle East all played their part Winston Churchill saw the war throughout in imperial terms The British Empire and the Second World War emphasises a central fact about the Second World War that is often forgotten

Origins of the Second World War Victor Rothwell,2001 Victor Rothwell examines the origins of World War II

from the flawed peace settlement in 1919 to the start of the true world war at Pearl Harbor in 1941 He asks many important questions Why did the cause of peace advance in the 1920s only to be stopped in its tracks and threatened with reversal by the Great Depression what was the nature of Nazi thinking about war foreign policy and the policy of appeasement that sought to accommodate the Third Reich without again going to war He also examines the events in the Far East at the time and draws a contrast between the role of the US and the Far East throughout the 1930s Copyright Libri GmbH All rights reserved
