

A scenic landscape featuring a calm lake in the foreground, reflecting the sky and the surrounding mountains. The sky is a mix of soft pinks, oranges, and purples, suggesting a sunset or sunrise. Numerous birds are seen in flight across the sky. In the middle ground, a person is standing on a small island or peninsula in the lake. The overall mood is peaceful and contemplative.

If we could see ourselves
the way that others see us,
we would be amazed.

To See Ourselves

Ole R. Holsti

To See Ourselves:

To See Ourselves Alistair Moffat, 2005-06-12 Since 1945 the world has changed at breakneck speed and life in post war Scotland is now entirely different from what it was like when Alistair Moffat grew up in the quiet Border town of Kelso in the 1950s At that time the rhythms and practicalities of daily life which had remained constant for many generations were about to change in the most unimaginable ways This is a book about these changes many of which have been dizzying and disorientating and how they have affected each and every one of us in all parts of the country The main themes such as housing healthcare sport the media the arts and entertainment urban and country life our relationship with the environment politics religion and education are all viewed through the lens of personal experience Alistair s own recollections of big events and small together with other eyewitness accounts bring these decades alive in a way that no ordinary history can with a directness and poignancy that underlines how much has been gained and how much lost To See Ourselves as Others See Us Ole R. Holsti, 2008-06-30 Drawing on public opinion surveys conducted in 30 nations this book documents an anti American sentiment It suggests that the war in Iraq human rights violations and unpopular international policies are largely responsible *The Importance of How We See Ourselves* Marina A.L. Oshana, 2010-09-28 The past fifteen years have seen a wellspring of interest in the concept and practical nature of the self Questions about the metaphysics of personal identity have preoccupied philosophical scholarship Less attention has been paid to the topic of the self from the first person standpoint the point of view of a person who regards certain phenomena as distinctive of and essential to her identity Nor has much attention been paid to how this concept of the self is related to responsible agency This book argues that a person s self conception affects her status as a responsible agent 1 The book develops a hybrid view of the self as the object of self consciousness that is the subject and owner of the events that occur by means of its agency Agents have unique identities as particular beings and identify themselves distinctively 2 The book argues that a healthy veridical sense of self grounds responsible agency by enabling persons to be aware of what they do and to understand their motives Certain pathologies upset the unity of a person s identity while others impair the lucidity of a person s sense of self and still others disturb general features of responsible agency such as the capacity to act purposively and realize one s will through intentional behavior The book explains what it means to be oneself and what departures from this state signify for a person s ability to navigate life and make sense of himself in the process The notion of acting out of character or failing to be oneself in some noteworthy way is relevant to a person s culpability because an individual s self conception affects his status as an accountable agent 3 To explain this the book defends an account of responsible agency Responsible persons are accountable alert to normative reasons in support of or in opposition to their behavior and able to respond to reasons for action bearing normative force because these reasons have normative force Accountable persons are unified agents a status that calls for an admiral **The White Slavery** Wiley Britton, 1909 *The garden of life, flowers of thought on culture, conduct and character*
