Korean culture and society more broadly *Fascism, the War, and Structures of Feeling in Italy, 1943-1945* Simonetta Falasca-Zamponi, 2023 By bringing to life the cultural imaginaries and practices of the past Fascism the War and Structures of Feeling in Italy 1943 1945 raises ostensibly intractable questions on the epochal impact of what often appears as inconsequential the typically unseen and seemingly banal power of everyday experiences *October*, 1997 *Paul in Everyday Life* John Douglas Adam, 1914 *Everyday Epiphanies* Jonathan Hughes Bolton, 2001 **Cassier's Magazine**, 1911 **William Morris and the Art of Everyday Life** Wendy Parkins, 2010 William Morris Victorian socialist designer poet artist and craftsman urged his contemporaries to Have nothing in your houses that you do not know to be useful or believe to be beautiful TM foregrounding his belief in the importance of beautiful practicality in daily domestic life This volume of essays seeks to examine the importance of Morris TM s interest in everyday life for his art literature and politics in his own day and beyond Contributors explore the many aspects of the everyday that informed William Morris TM s work from his utopian socialism to his designs for domestic interiors and in the process show how his insistence on the value of beauty and pleasure in daily life formed the basis of his call for a radical transformation of society As this volume demonstrates William Morris TM s concern with the ordinary concerns and pleasures of daily life remains relevant in the twenty first century **Understanding Extreme Sports: A Psychological Perspective** Eric Brymer, Francesco Feletti, Erik Monasterio, Robert D. Schweitzer, 2020-03-30 Extreme sports those activities that lie on the outermost edges of independent adventurous leisure activities where a mismanaged mistake or accident would most likely result in death have developed into a significant worldwide phenomenon Brymer Patterson 2002 and Generation Z turn to extreme sports because they are popular and linked to escapism Giannoulakis Pursglove 2017 Arguably extreme sports now support a multi billion dollar industry and the momentum seems to be intensifying Traditional explanations for why extreme sports have become so popular are varied For some the popularity is explained as the desire to rebel against a society that is becoming too risk averse for others it is about the spectacle and the merchandise that is associated with organised activities and athletes For others it is just that there are a lot of people attracted by risk and danger or just want to show off For others still it is about the desire to belong to sub cultures and the glamour that goes with extreme sports Some seek mastery in their chosen activity and in situations of significant challenges This confusion is unfortunate as despite their popularity there is still a negative perception about extreme sports participation There is a pressing need for clarity The dominant research perspective has focused on positivist theory driven perspectives that attempt to match extreme sports against predetermined characteristics For the most part empirical research has conformed to predetermined societal perspectives Other ways of knowing might reveal more nuanced perspectives of the human dimension of extreme sport participation This special edition brings together cutting edge research and thought examining psychology and extreme sports with particular attention payed to the examination of motivations for initial participation continued participation effective performance and outcomes from

**Philosophizing the Everyday** John Roberts,2006-03-20 Critical overview of philosophical approaches to the everyday  
and its relation to art and popular culture The Museum Establishment and Contemporary Art Rebecca J.

DeRoo,2006-01-09 This book provides an in depth account of the protests that shook France in 1968 and which served as a  
catalyst to a radical reconsideration of artistic practice that has shaped both art and museum exhibitions up to the present  
Rebecca DeRoo examines how issues of historical and personal memory the separation of public and private domains and the  
ordinary objects of everyday life emerged as central concerns for museums and for artists as both struggled to respond to the  
protests She argues that the responses of the museums were only partially faithful to the aims of the activist movements  
Museums in fact often misunderstood and misrepresented the work of artists that was exhibited as a means of addressing  
these concerns Analyzing how museums and critics did and did not address the aims of the protests DeRoo highlights the  
issues relevant to the politics of the public display of art that have been central to artistic representation in France as well as

Europe is preparing for its re unification Hungary Poland and the Czech Republic have already entered the NATO nine more  
countries from the former Soviet Block and the Mediterranean are preparing themselves to enter the European Union After  
hundreds of years of war the era of peace and welfare which seemed to be so near has vanished in new wars and atrocities  
Fundamentalisms and globalisation question democracy as such Nowadays the new term is good governance The nation state  
is stronger than imagined and seems even to become the only refuge against global shareholder capitalism Will the old civil  
societies be able to develop new forms of democracy in the heritage of our past **Transformation of Public Text in**

movements in architecture in the 1960 s this book traces a moment in the history of architecture when revolutionary ideals  
were paramount and dreams became drawings The ensuing disillusionment as well as a contemporary revival of this period

are enclosed within their very premises This book explores three radical critiques of modernist architecture throughout the work of the Situationist International Venturi and Scott Brown and Archigram Situated on the cusp of a new time of postmodernity and global capitalism these critical reactions to their forebears demonstrate a perceptively critical understanding of modernism and a prescience towards contemporary conditions At the same time however their dreams were so entwined with the modern project that they have created an untenable position for the contemporary architecture debate Book jacket
