**I. Carter, M. Ricciardi**

## **Transforming Political Discourse:**

**Transforming Political Discourse** Terence Ball, 1988-01-01      Reappraising Political Theory Terence Ball, 1994-11-24

Machiavelli Hobbes Rousseau Mill and Marx and Foucault what really links these and other classic political theorists Not argues Terence Ball their common status as dead white European males but instead the exciting and compelling way in which they can speak to us today Professor Ball begins by setting out his liberating view of the way we should approach classic texts Using an approach that is both problem driven and methodologically pluralist Ball offers new readings and reappraisals of key authors and classic works in political theory Throughout he argues that the importance of the great texts lies in their repeated reinterpretation in the light of problems that arise for present day readers This tour de force always entertaining and eclectic focuses on the core problems surrounding many of the major thinkers Was Machiavelli really amoral Why did language matter so much to Hobbes and why should it matter to us Are the roots of the totalitarian state to be found in Rousseau Were the utilitarians sexist in their view of the franchise Written in lively and accessible style the book will provoke debate among students and scholars alike Throughout Terence Ball shows just how exciting and important political theory can be

**Metaphor and Political Discourse** A. Musolff, 2004-08-04 Far from being rhetorical ornaments metaphors play a central role in public discourse as they shape the structure of political categorisation and argumentation Drawing on a very large bilingual corpus this book now in paperback analyses the distribution of metaphor scenarios in more than a decade of public discourse on European integration elucidating differences in UK and German attitudes and argumentation The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual semantic and argumentation levels and incorporating the historical dimension of metaphor evolution Finally drawing on examples of metaphor negotiation and on a reassessment of Hobbes concept of metaphor in Leviathan the book highlights the ethical dimension of metaphor in politics

**Legitimation in Political Discourse** Piotr Cap, 2013-01-14 How did the G W Bush administration manage to persuade Americans to go to war in Iraq in March 2003 How was this intervention and the global campaign named as war on terror legitimised linguistically This book shows that the best legitimisation effects in political discourse are accomplished through the use of proximization a cognitive rhetorical strategy that draws on the speaker's ability to present events as directly and increasingly affecting the addressee usually in a negative or threatening way There are three aspects of proximization spatial temporal and axiological The spatial aspect involves the construal of events in the discourse as physically endangering the addressee The temporal aspect involves presenting the events as increasingly momentous and historic and hence of central significance to both the addressee and the speaker The axiological aspect consists in a growing clash between the system of values adhered to by the speaker and the addressee and the values characterizing a third party whose actions ideologically negative are made proximate and thus threatening Although the tripartite model of proximization proposed in the book is complex at the level of its linguistic realisation the working

assumption is intriguingly basic addressees of political discourse are more likely to legitimise pre-emptive actions aimed at neutralizing the proximate threat if they construe the threat as personally consequential. The book shows how language of the war on terror and especially the rhetoric of the Iraq war respond to this precondition. This second revised edition features an extended preface and a new closing chapter.

**The Republican Legacy in International Thought** Nicholas Greenwood Onuf, 1998-01-08. Republicanism has enjoyed a revival of scholarly interest in several fields. In this book Nicholas Onuf provides the first major treatment of the republican way of thinking about law, politics and society in the context of international thought. The author tells two stories about republicanism starting with Aristotle and culminating in the eighteenth century when international thought became a distinctive enterprise. These two stories surround the thought of Vattel and Kant and by telling them side by side the author identifies a substantial but little acknowledged legacy of republicanism in contemporary discussions of sovereignty, intervention, international society, peace, levels of analysis and the global economy. In identifying this legacy in contemporary thought, Nicholas Onuf develops his constructivist approach to international theory.

Freedom, Power and Political Morality I. Carter, M. Ricciardi, 2001-03-13. This collection of new essays on political and legal theory concentrates on themes dealt with in the work of Felix Oppenheim including fundamental political and legal concepts and their implications for the scope of morality in politics and international relations. Among the issues addressed are the relationship between empirical and normative definitions of freedom, power and interests, whether governments are free to act against the national interest and whether they can ever be morally obliged to do so.

*Collective Action and Political Transformations* Aurea Mota, 2019-04-03. This book acknowledges the severe problems with effective and significant collective action but arrives at a more optimistic diagnosis of our time by rethinking the political from the angle of the experiences with progressive and conservative collective action in different parts of the globe: Brazil, South Africa and Europe. By doing so it contributes a critical perspective to the debate about the possible impact of parts of the Global South for positive social and political developments worldwide.

**Assessing the Language of TV Political Interviews** Gianmarco Vignozzi, 2019-06-10. This book presents a thorough quantitative and qualitative corpus-assisted investigation of the language employed in a specialized communicative activity type, namely the political interview aired on British and American Sunday morning talk shows. More specifically, interviewers' and interviewees' turns are analyzed here so as to unveil the stratification of discourses characterizing their speech, which inevitably favours the proliferation of a mixture of different lexicogrammatical traits and pragmatic functions. Previous studies in this field mainly adopt a conversation analysis approach, thus focusing on turn allocation and organization. This book adds a different perspective by resorting to a combination of corpus-driven and corpus-based techniques in the study of a specifically designed corpus of contemporary TV political interviews, the result being a comprehensive investigation of the genre. The analysis tackles both specialized language aspects and variation between spoken and written English in the genre at stake. Throughout the study

linguistic forms are associated when relevant with their pragmatic functions in context bringing to the fore for example differences between the ways in which interviewers and interviewees interact with each other and with the audience Particular emphasis is also placed on salient distinguishing traits characterizing American and British interviews

*Walls of Resentment: How Nationalist Backlash Fuels Division, Transforms Politics, and Demands a Framework for Democratic Renewal* Nova Merrick, 2025-09-09 Nationalism is surging once more reshaping borders politics and identities *Walls of Resentment* examines the forces driving this new wave where historical grievances combine with modern media to fuel anti immigrant sentiment across nations Through rigorous analysis this book explains how old wounds are reactivated in contemporary debates why populist leaders weaponize resentment and how digital platforms amplify hostility into mainstream politics At the same time it investigates possible responses strategies for preserving democratic integrity re establishing civic trust and creating systems that move beyond fear and exclusion Written for professionals academics and policymakers *Walls of Resentment* delivers a clear evidence based framework for understanding today s nationalist backlash It is essential reading for those who seek not only to grasp the causes of division but to chart a path toward democratic resilience

*History of Concepts* Iain Hampsher-Monk, Karin Tilmans, Frank van Vree, 1998 Hoewel enorm invloedrijk in Duitstalig Europa heeft de conceptuele geschiedschrijving Begriffsgeschichte tot nu toe weinig aandacht in het Engels gekregen Dit genre van intellectuele geschiedschrijving verschilt van zowel de Franse geschiedschrijving van mentalit s als de Engelstalige geschiedschrijving van verhandelingen door het concept Aan de hand van praktische voorbeelden in de geschiedschrijving wordt deze vorm toegelicht door Bram Kempers Eddy de Jongh en Rolf Reichardt

**Transformational Politics** Stephen Woolpert, Christa Daryl Slaton, Edward W. Schwerin, 1998-08-13 Argues that traditional political science is failing to identify and address fundamental political phenomena of our time and proposes an alternative value based political science

**Political Discourse and the U.S. National Interest** A. Dan McIntyre, 1991 [Understanding the Founding](#) Alan Ray Gibson, 2007 Over the course of the last century scholars have furiously debated four questions concerning the Founders and their act of creation Were the Framers motivated by their economic interests How democratic was the Framers Constitution Should we interpret the Founding using philosophical or strictly historical approaches What traditions of political thought were most important to the Framers In *Understanding the Founding The Crucial Questions* Alan Gibson examines the preconceptions that scholars bring to these questions explores the deepest sources of scholars disagreements over them and suggests new and thoughtful lines of interpretation and inquiry Building on his previous work *Interpreting the Founding* which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the Founders

*The Concept of the Victim in American Political Discourse* Alyson Manda Cole, 1998

**Interpreting the Founding** Alan Ray Gibson, 2006 As politicians and judges argue over the original intent of our country s founding fathers the American Founding itself continues to inspire a prodigious amount of research and commentary reflecting a bewildering

array of methods and interpretations Alan Gibson now offers readers an insightful and convenient guide through this daunting and sprawling body of scholarship Comprehensive and judicious Interpreting the Founding provides summaries and analyses of the leading interpretive frameworks that have guided the study of the Founding since the publication of Charles Beard's An Economic Interpretation of the Constitution in 1913 Gibson argues that scholarship on the Founding is no longer steered by a single dominant approach or even by a set of questions that control its direction He also examines the challenges posed to Founding scholarship by this diversity and complexity and the possibilities opened by new avenues of inquiry that have recently emerged scholars of the Founding including Louis Hartz Bernard Bailyn Gordon Wood and Garry Wills that best exemplify different schools of interpretation Gibson focuses on six approaches that have dominated the modern study of the Founding Progressive Lockean liberal Republican Scottish Enlightenment multicultural and multiple traditions approaches For each approach he traces its fundamental assumptions revealing deeper ideological and methodological differences between schools of thought that on the surface seem to differ only about the interpretation of historical facts While previous accounts have treated the study of the Founding as the sequential replacement of one paradigm by another Gibson argues that all of these interpretations survive as alternative and still viable approaches each has simultaneously illuminated and masked core truths about the American Founding he renders a balanced account of the current debate over the origins and foundations of the American republic and offers solid footing on the path to understanding the vast literature devoted to this important subject

**Political Speeches in Scotland** William Ewart Gladstone, 1880

Transformations and changes in contemporary Ukrainian femininity models Nataliya Gudz, 2004-12-21

Seminar paper from the year 2004 in the subject Sociology Relationships and Family grade 1 7 Otto von Guericke University Magdeburg course Gender Issues in Contemporary Russia language English abstract After the declaration of the Ukrainian independence and fall of the iron curtain the awareness of the Ukrainian women was drastically changed Ideologically guided canon of femininity a Soviet super woman as a working mother has lost its actuality in the 1990s it was changed by new life standards behaviour models values and moral norms At once the nationalist movements appeared on the scene and demanded to design and maintain national identity with articulation of basic concepts of nationality In Ukraine this process was socially defined through the modern reconstruction of patriarchy supported by the educational system mass media political discourse and legislation Having recognised Ukrainian as the official language Ukraine began moulding ideology constructed on the conception of the pre Revolutionary Ukraine The entangled images of the Cossack republic and the image of Ukraine as Mother together with vital revival of Orthodoxy strengthened patriarchy in politics social order and cultural structures of the modern Ukrainian society However through economical crisis and society instability the image of Mother Protector correlated with the historical past and traditional culture of the Ukrainians was shifted from its key position by unfamiliar before but rather appealing Western models of femininity In this paper we try to find out how all these images of

femininity were created maintained and transformed through the recent years      **Conceptual Change and the Constitution** Terence Ball, John Greville Agard Pocock, 1988 In this volume distinguished historians and political scientists examine the linguistic and conceptual dimension of the American Founding They analyze political discourse during the short span of years from the Revolution through ratification      **Transforming Ireland** Debbie Ging, Michael Cronin, Peadar Kirby, 2009 As Ireland's economic boom grounds to a sudden halt Transforming Ireland offers a diverse range of critical analyses of its legacies across different areas of Irish life the media racism consumerism sports education state surveillance and the pharmaceutical industry The book also maps out a politics of change for Irish society      Mussolini as Revealed in His Political Speeches (November 1914-August 1923) Benito Mussolini, 1923
