Staples, 2013-01-31 Tried and tested practical wisdom about participatory, long-range, and strategic planning. In rapidly changing complex landscapes, organization leaders need concrete plans, not simplistic advice. Reactive plans often entrench the problem. But when many minds focus together, a new array of ideas and options can generate profound insight, creative strategy, and high resolve in the whole group. What can leaders, consultants, and facilitators do to ensure this happens? As a master practitioner of ICAs, Technology of Participation (ToPTM), Bill Staples fully illustrates the breadth and depth of the

transformation that comes from fully engaging people in the decisions that affect their work and lives This book pulls back the veil on today's most powerful facilitation and reveals transformational philosophy methods and tools used around the world ToP practitioners will especially benefit from the case studies and detailed procedures that launch organizational transformation There are few organizations that have contributed so much to the improvement of group problem solving and decision making as the Institute of Cultural Affairs Over the past 25 years its Technology of Participation has become known the world over and is applied in every sector of society This book provides a thorough introduction to ToP including its background purpose methods and applications Bill Staples integrates and presents this information in a way that makes it accessible to anyone concerned with engaging people in effective problem solving and decision making Sandy Schuman author of *Creating a Culture of Collaboration* The International Association of Facilitators Handbook and *The Handbook for Working with Difficult Groups How They Are Difficult Why They Are Difficult and What You Can Do About It* ICA is truly one of the pioneers of the participatory approach to planning and deliberation Its commitment to participatory democratic values is authentic and trustworthy Sam Kaner author [Coaching in Times of Crisis and Transformation](#) Liz Hall, 2015-10-03 *Coaching in Times of Crisis and Transformation* takes an in depth look at crisis and change in the world we live in today and discusses its impact on both individuals and organizations Covering not just coaching in the current crisis but any time of crisis and change it offers a complete practical resource for managers and coaches to tackle the challenges effectively This book can help turn a crisis whether personal or systemic into an opportunity for transformation *Coaching in Times of Crisis and Transformation* covers definitions of crisis from both the individual and organizational perspective including insights on adapting to change and finding opportunities in crisis what neuroscience tells us about our reactions to change transformative coaching change models supporting organizations in crisis and how coaching and mentoring can act as preventative measures against crises [Isivivane for Change and Transformation](#) , **The Transformation of American Sentiment Toward Germany, 1870-1914** Clara Eve Schieber, 1923 [Managing Social and Ethical Issues in Organizations](#) Stephen W.
