## Without Equal:

*The American Printer* ,1925      *Chinese Philosophy on Teaching and Learning* Xu Di,Hunter McEwan,2016-03-01 Written over two and a half millennia ago the Xueji On Teaching and Learning is one of the oldest and most comprehensive works on educational philosophy and teaching methods as well as a consideration of the appropriate roles of teachers and students The Xueji was included in the Liji On Ritual one of the Five Classics that became the heart of the educational system during China's imperial era and it contains the ritual protocols adopted by the Imperial Academy during the Han dynasty Chinese Philosophy on Teaching and Learning provides a new translation of the Xueji along with essays exploring this work from both Western and Chinese perspectives Contributors examine the roots of educational thought in classical Chinese philosophy outline similarities and differences with ideas rooted in classical Greek thought and explore what the Xueji can offer educators today      **Nietzsche, Heidegger, and Buber** Walter Arnold Kaufmann,      **Thinking Through Confucius** David L. Hall,Roger T. Ames,1987-10-15 Thinking Through Confucius critically interprets the conceptual structure underlying Confucius philosophical reflections It also investigates thinking or philosophy from the perspective of Confucius Perhaps the philosophical question of our time is what is philosophy The authors suggest that an examination of the Chinese philosophy may provide an alternative definition of philosophy that can be used to address some of the pressing issues of the Western cultural tradition This book finds an appropriate language for the interpretation of traditional Chinese philosophical thought a language which is relatively free from the bias and presuppositions of Western philosophy      **Federal Register** ,1994-08-26      *FCC Record* United States. Federal Communications Commission,1987      **Ethics Unbound** Katrin Froese,2013-05-30 This book closely examines texts from Chinese and Western traditions that hold up ethics as the inviolable ground of human existence as well as those that regard ethics with suspicion The negative notion of morality contends that because ethics cannot be divorced from questions of belonging and identity there is a danger that it can be nudged into the domain of the unethical since ethical virtues can become properties to be possessed with which the recognition of others is solicited Ethics thus fosters the very egoism it hopes to transcend and risks excluding the unfamiliar and the stranger The author argues inspirationally that the unethical underbelly of ethics must be recognized in order to ensure that it remains vibrant      **Discrimination Against Women** United States. Congress. House. Committee on Education and Labor. Special Subcommittee on Education,1975      **The history of the religious movement of the eighteenth century, called Methodism** Abel Stevens,1878      *Once a Week* S. Lucas,      **Hoard's Dairyman** ,1916      **Report of the Secretary of the Iowa State Agricultural Society, for the Year ...** Iowa State Agricultural Society,1873      **Engineering World** ,1907      **Blackwood's Magazine** ,1911      **The Blast Furnace and Steel Plant** ,1919      *The Dog Fancier* Eugene Glass,1920      **Vocational Rehabilitation** United States.
