Stop Alzheimer's Now! Bruce Fife, 2016-04-11. Over 35 million people have dementia today. Each year 4.6 million new cases occur world wide, one new case every 7 seconds. Alzheimer's disease is the most common form of dementia. Parkinson's disease, another progressive brain disorder, affects about 4 million people world wide. Millions more suffer with other neurodegenerative disorders. The number of people affected by these destructive diseases continues to increase every year. Dementia and other forms of neurodegeneration are not a part of the normal ageing process. The brain is fully capable of functioning normally for a lifetime regardless of how long a person lives. While ageing is a risk factor for neurodegeneration, it is not the cause. Dementia and other neurodegenerative disorders are disease processes that can be prevented and successfully treated. This book outlines a program using ketone therapy and diet that is backed by decades of medical and clinical research and has proven successful in restoring mental function and improving both brain and overall health. You will learn how to prevent and even reverse symptoms associated with Alzheimer's disease, Parkinson's disease, amyotrophic lateral sclerosis (ALS), multiple sclerosis (MS), Huntington's disease, epilepsy, diabetes, stroke, and various forms of dementia. The information in this book is useful not only for those who are suffering from neurodegenerative disease, but for anyone who wants to be spared from ever encountering one or more of these devastating afflictions. These diseases don't just happen overnight. They take years, often decades, to develop. In the case of Alzheimer's disease, approximately 70 percent of the brain cells responsible for memory are destroyed before symptoms become noticeable. You can stop Alzheimer's and other neurodegenerative diseases before they take over your life. The best time to start is now.

Fighting Ms Erin Morrow Still, Erin Morrow Still & Friends, 2009-11. In the spring 1999, at eighteen years old, I was diagnosed with Multiple Sclerosis. The idea of a newly diagnosed book that focused on wellness began once I finally got my MS under control. It took four long years of understanding what my body needed to be healthy while experiencing life as a college student at Appalachian State University. I found myself searching for a wellness summary of multiple sclerosis. Why couldn't I find everything I needed in one place? This idea seemed like something most newly diagnosed individuals would have already asked for, but it was nowhere to be found. I didn't want too much information at once, only what I needed to start.

out healthy and stay positive In addition to needing a wellness summary I sought to find other young people who were just beginning life with multiple sclerosis I needed to know people who were positive and could laugh this off with me In 2003 I established my role as an MS patients advocate by founding with the help of the MS Society a young men s and women s group in middle Tennessee Then in 2005 I was awarded the Betaseron Champion of Courage grant to write the book we have all been waiting for a wellness guide to MS for the newly diagnosed Lance Armstrong says it best when he explains why children cope with cancer so much better than adults He says It s a fact that children with cancer have higher cure rates than adults with cancer and I wonder if the reason is their natural unthinking bravery Sometimes little kids seem better equipped to deal with cancer than adults They re very determined little characters and you don t have to give them big pep talks Adults know too much about failure they re more cynical and resigned and fearful Kids say I want to play Hurry up and make me better That s all they want This quote helps me each day and will continue to be my approach to life I will never forget the news of my diagnosis and thinking about how I couldn t wait to get back to school to feel normal again The MS could come along if it wanted to but I was going to get back to life no matter what it took When I was younger I used to love reading Young and Modern or YM to most teenagers There are stories in this magazine under a section called Say Anything and they always made me laugh out loud Of course these were juvenile stories of walking out of the bathroom with your skirt tucked in your tights or something of that nature I realized that there where others out there who had it worse than I did and sadly that always seemed to make me feel better This is why telling our MS stories will help to enable other newly diagnosed individuals not only to begin this journey in a positive state but also to find the strength they need from someone who might have it worse I love my health conscious lifestyle and feeling good about my body so I needed health tips and recipes too Plus I found friends and resources along the way that helped to make this book complete This book is designed to help us join together and find the positive in all we have to face I would like each individual who has been diagnosed with MS to be able to relate to some of the experiences he or she reads in this book and know that we still enjoy wonderful lives even with this heinous disease Reaching out to others and finding a positive network will help make us all stronger My dream for this manuscript is to be passed along to someone newly diagnosed and let them know that we can beat this disease together I will leave you with a final quote by Lance Armstrong If children have the ability to ignore odds and percentages then maybe we can all learn from them When you think about it what other choice is there but to hope We have two options medically and emotionally give up or fight like hell

Overcoming Multiple Sclerosis George Jelinek,2016-06-22 A practical guide to the successful Overcoming Multiple Sclerosis recovery program for people with MS and their doctors Thousands of people with MS around the world are now following this preventive medicine approach and living healthy active lives Overcoming Multiple Sclerosis is an established and successful program of treatment Once a diagnosis of MS meant inevitable decline and disability Now thousands of people around the world are living healthy active lives on the Overcoming Multiple Sclerosis

recovery program Overcoming Multiple Sclerosis explains the nature of MS and outlines an evidence based 7 step program for recovery Professor George Jelinek devised the program from an exhaustive analysis of medical research when he was first diagnosed with MS in 1999 It has been refined through major ongoing international clinical studies under Professor Jelinek s leadership examining the lifestyles of several thousand people with MS world wide and their health outcomes Overcoming Multiple Sclerosis is invaluable for anyone recently diagnosed with MS living with MS for years or with a family member with MS It makes an ideal resource for doctors treating people with MS I would have no hesitation in recommending Overcoming Multiple Sclerosis to my patients but also to my friends and colleagues Professor Gavin Giovannoni MBBCh PhD FCP S A Neurol FRCP FRCPath Chair of Neurology Blizard Institute Barts and The London School of Medicine and Dentistry Overcoming Multiple Sclerosis combines hard scientific evidence with practical advice and compassion It will be of benefit to nearly everybody affected by MS and I heartily recommend it Dr Peter Fisher FRCP Physician to Her Majesty Queen Elizabeth II and Director of Research Royal London Hospital for Integrated Medicine
