## **Taking Population Seriously:**

*Taking Population Seriously* Frances Moore Lappé, Rachel Schurman, 1989 Is a population explosion really overwhelming the planet Frances Moore Lappe and Rachel Schurman examine the social and economic causes which affect fertility and choices about reproduction In seeking solutions to the population problem they show how for many people large families provide the only form of security they look at the Third World countries which have successfully reduced fertility rates by giving women in particular financial and social alternatives to child bearing If we are to take population seriously we must stop thinking simply in terms of controlling births and deal with the causes of the population explosion This is the only way the missing piece can be fitted into the population puzzle

Some Have Babies; Others, Regrets! Philip P. Eapen, 2010-03-20 Some Have Babies Others Regrets examines the relevance of the creation mandate for human beings to multiply and fill the earth in today's world It evaluates popular notions about the world being over populated in the light of available scientific evidence

*Toward a Small Family Ethic* Travis N. Rieder, 2016-06-23 This thought provoking treatise argues that current human fertility rates are fueling a public health crisis that is at once local and global Its analysis and data summarize the ecological costs of having children presenting ethical dilemmas for prospective parents in an era of competition for scarce resources huge disparities of wealth and poverty and unsustainable practices putting irreparable stress on the planet Questions of individual responsibility and integrity as well as personal moral and procreative issues are examined carefully against larger and more long range concerns The author's assertion that even modest efforts toward reducing global fertility rates would help curb carbon emissions slow rising global temperatures and forestall large scale climate disaster is well reasoned and more than plausible Among the topics covered The multiplier effect food water energy and climate The role of population in mitigating climate change The carbon legacy of procreation Obligations to our possible children Rights what is right and the right to do wrong The moral burden to have small families *Toward a Small Family Ethic* sounds a clarion call for bioethics students and working bioethicists This brief thought rich volume steers readers toward challenges that need to be met and consequences that will need to be addressed if they are not
