Taking The Mike:

Aurorae D. J. Hoffman, 2012-09 I never thought that I would spend my retirement writing novels Then again I never planned on hearing a voice not my own inside my head At my age many of my friends think I am going senile but they are wrong So this sixty something year old is in front of an old typewriter and waiting Waiting to hear the rest of this story but it has been months of silence I am beginning to believe that it is over and the voice is truly gone Therefore will not be telling their life story and perhaps that is for the best Everyone knows that I can t type well and my grammar is terrible That doesn t matter and what does is letting you know this biography Perhaps I should just put this old typewriter back in its case I will spend last of my years wondering before I also get put in a case I hope my porcelain farm animals find a good home when I m gone WHAT Okay The voice is back but not as loud and different than before But I am pleased to hear it again and hope my arthritis doesn t act up I will manage the pain of typing many pages and finally get use to it I should buy one of those computers everyone is using these days I understand it could even help with my grammar but I don t know What You are right and I am ranting on But how should I begin this novel and it can t be at the beginning What Of course and why wouldn t it It will start where I left off from my writings of Devan This novel is named Aurorae and I beg forgiveness for my mistakes Thank you Morgan E Wentworth

The Medicalization of Marijuana Michelle Newhart, William Dolphin, 2018-09-03 Winner of the Donald W Light Award for the Applied or Public Practice of Medical Sociology Medical marijuana laws have spread across the U S to all but a handful of states Yet eighty years of social stigma and federal prohibition creates dilemmas for patients who participate in state programs The Medicalization of Marijuana takes the first comprehensive look at how patients negotiate incomplete medicalization and what their experiences reveal about our relationship with this controversial plant as it is incorporated into biomedicine Is cannabis used similarly to

other medicines Drawing on interviews with midlife patients in Colorado a state at the forefront of medical cannabis implementation this book explores the practical decisions individuals confront about medical use including whether cannabis will work for them the risks of registering in a state program and how to handle questions of supply dosage and routines of use Individual stories capture how patients redefine and reclaim cannabis use as legitimate individually and collectively and grapple with an inherently political identity These experiences help illustrate how stigma prejudice and social change operate By positioning cannabis use within sociological models of medical behavior Newhart and Dolphin provide a wide reaching theoretically informed analysis of the issue that expands established concepts and provides new insight on medical cannabis and how state programs work Supreme Court of the State of New York Appellate Division - Second Department ,
