Television Standards? J. V. Barton, 2005 The Federal Communications Commission FCC has been bombarded with hundreds of thousands of complaints concerning the 2004 Super Bowl halftime show Although the focal point of the complaints has been a public breast exposure the complaints perhaps reflect the general outrage at a halftime show which has been described as a raunchy and disgraceful public display of indecency The National Football League took a huge risk with its franchise presentation which has already reached over 100 million viewers The FCC however is supposed to function as the guardian

of what passes for a certain level of public decency and cultural acceptability But has it been doing that or has it deteriorated to a little more than a back water refuge for nepotism and industry fawning This book presents media analyses of what the FCC is supposed to do not what it does based on results

Theory of Media Literacy W. James Potter,2004-05-05 Our society has become characterized by aggressive media Information is constantly at our fingertips whether it be through the books newspapers and magazines we read the television we watch the radio stations to which we listen or the computers that connect us to the world in a matter of seconds We can try to limit our media exposure but it is impossible to avoid all media messages As a result we psychologically protect ourselves by automatically processing the media to which we are exposed

Theory of Media Literacy A Cognitive Approach comprehensively explains how we absorb the flood of information in our media saturated society and examines how we often construct faulty meanings from those messages In this book author W James Potter enlightens readers on the tasks of information processing By building on a foundation of principles about how humans think *Theory of Media Literacy* examines decisions about filtering messages standard schema to match meaning and higher level skills to construct meaning A central theme of Potter s theory is the locus that governs the degree to which a person is media literate The locus is enriched by developing skills as well as good knowledge structures on five topics media effects media content media industries real world parameters and the self

Key Features Presents the first social scientific theory of the process of media literacy Explores a broad range of literature on media literacy written during the past two decades Focuses on how the human mind works especially in this mass media saturated society *Theory of Media Literacy* is an essential resource to a wide audience within the media discipline The book provides empirical researchers with direction to test the theory and extend our understanding of how the media affect individuals and society Practitioners will find it helpful in developing strategies to achieve goals and at the same time avoid high risks of negative effects In addition new scholars will find it to be an excellent introduction to various media literacy research
