**Television's Imageable Influences** Camille O. Cosby,1994-08-17 Camille O Cosby presents a startling examination of how young African Americans are dramatically impacted by the pervasive negative images of their culture that are regularly portrayed on television Dr Cosby shows how American media establishments have engineered a climate of ignorance and disenfranchisement by fostering misinformation and indifference She maintains that a national viewers boycott of programming containing such negative images is the first step towards making the television industry face up to its responsibility as the most powerful communications tool in our nation Contents Statement of the Problem Influence of Perception on Human Behavior The Impact of Television Images on How Individuals View Themselves What Specific Aspects of Self Are Addressed by Particular Television Imageries of African Americans What Possible Influences Do Particular Television Imageries Have on Self Perceptions of Selected Young Adult African Americans What Specific Aspects of Self Are Addressed by Particular Television Imageries of African Americans What Possible Influence Do Particular Television Imageries Have on Self Perceptions of Selected Young Adult African Americans Nielson Media Research Personal History Form and Profiles of Interviewees

**Television's Imageable Influences** Camille Olivia Cosby,1994-01-01 The worldwide influence of African Americans as a major creative and economic force in Western popular culture is well documented What is less understood is African Americans lack of participation in defining how their cultures and media images are projected We live in an age when self esteem is considered a prerequisite for success How does it feel to view pervasive negative references to your culture on television What impact would it have on your psyche to see your people constantly portrayed as the devoted servant the chicken and watermelon eater the sexual superman the natural born musician or the social delinquent among many other derogatory images Can we afford to tolerate such ignorance and indifference to the conscious denigration of African American cultures or any other culture *Television's Imageable Influences* Camille O.

Planning ,1996 **Moving Experiences** David Gauntlett,1995 The possible effect of television on its viewers has been a source of controversy for decades Over the years the flickering box has been blamed for every kind of social problem and antisocial act and in many cases has been found guilty by an audacious but often surprisingly shaky range of studies The hypothesis that television makes people mad bad or otherwise dangerous to know has been tested in multifarious ways whilst researchers have also investigated whether television might actually do viewers good **Seeing and Believing** Greg Philo,1990 Television has a powerful impact on our beliefs and can be used as a propaganda tool Philo examines these issues

**Programming Our Lives** Walter Cummins,George Gordon,2006-06-30 In this timely examination of television and American identity Cummins and Gordon take readers on an informed walk through the changes that TV has already wrought and those still likely to confront us Commercial television in America is less than 60 years old yet it has had an enormous impact on what we like what we do what we know and how we think A family transplanted from the 1940s to the present day would certainly be stunned by a fundamentally different world instead of gathering in the living room for a shared evening of radio they would be scattered around the house to indulge their individual interests on one of a hundred cable channels instead of a society with rigid racial and ethnic divisions they would see people of different ethnicities in passionate embraces and certainly they would see very different sets of values reflected across the board They would in short find themselves in an unrecognizable America one both reflected in and shaped by television a medium that has been shown to have an unprecedented influence on our lives both for better and for worse By focusing on the development of television within the cultural context that surrounds it and drawing on such phenomena as quiz shows comedy hours the Kennedy assassination the Olympics sitcoms presidential ads political debates MTV embedded journalism and reality TV the authors reveal television s impact on essential characteristics of American life They cover topics as diverse as politics crime medicine sports our perceptions our values our assumptions about privacy and our unquenchable need for more things In addition they consider the future of the medium in the light of the proliferation of programming options the prevalence of cameras and receivers in our lives the growing links between TV and computers and the crossed boundaries of television throughout the world

*You Are What You See* Domenica Feraud, 2026-09-15

Entertainment was never just entertainment It was instruction From the sleek hallways of Constance Billard to the rainy corridors of Grey Sloan Memorial Hospital Dom nica Feraud like so many of us was raised by TV It was her greatest comfort her most passionate obsession her favorite form of therapy Her childhood friends were cloaked in laugh tracks her mentors monologued under stage lights and her ideas of love sex power beauty and self worth were shaped frame by frame But what if the stories that comforted women also misled us into becoming shells of who we were meant to be In *You Are What You See* Feraud peels back the shiny veneer of pop culture to uncover the deeper truths encoded in our most beloved media With fierce intellect and unflinching vulnerability she revisits the onscreen moments that taught her how to exist as a woman how to eat how to please and how to love for better or for worse From the subtext of sitcom banter to the seductive manipulation of office romance she reveals the quiet violence of cultural messaging and the radical possibility of unlearning it A bold blend of cultural criticism personal narrative and feminist inquiry this essay collection invites readers to reclaim their gaze and rewrite the stories they've been told about who they are For every feminist who ever crushed on a problematic character every person shaped by reruns and every pop culture devotee ready to challenge the status quo *You Are What You See* is a mirror a reckoning and a call to demand more from the media that shapes our world
