## **The Highway Code:**

The official highway code Driving Standards Agency,2007-09-28 For over 75 years The Highway Code has been the official guide to using the roads safely and legally It is important that all road users drivers motorcyclists cyclists horse riders and pedestrians are aware of the latest rules and advice contained in this new edition On average nine people are killed and around 80 are seriously injured in road collisions every day in Britain so road safety could be greatly improved by following the advice in The Highway Code

The highway code Great Britain: Ministry of Transport,2011-04-20 To celebrate the 80th anniversary of The Highway Code this facsimile of the very first edition originally published in 1931 is available for a limited time only Despite the number of motor vehicles on Great Britain s roads increasing from just 2 3 million in 1931 to over 34 million today the overriding message of The Highway Code has remained the same The very first edition urged all road users to be careful and considerate towards others putting safety first and this advice is still relevant today However other aspects have changed considerably For example in the 1931 edition mirrors are not even mentioned and drivers are advised to sound their horn when overtaking Nowadays advice on how to cross the road fills a whole chapter but originally it only merited a paragraph Much of this guide is given over to hand signals considered to be the primary issue for road users in the days before indicators were universal and there is also a section devoted to horse drawn vehicles including advice on how to rotate a whip above your head to indicate which direction the vehicle is about to turn
