*The Sensitive Man* Poul Anderson,2011-09 Conspiracy seems to be as much a part of our times as it was in the times of Guy Fawkes and the Gunpowder Plot Hence it finds frequent reflection in all branches of fiction including science fiction Yet as in life something new has been added the most gigantic conspiracy of all the human conspiracy against conspirators Which makes for a fine stirring story in this short novel of the future by Mr Anderson one of our best young authors So the editors of Fantastic Universe wrote when they published this tale in January 1954 But there s more to be had from Anderson himself The Mermaid Tavern had been elaborately decorated he wrote beginning the tale Great blocks of hewn coral for pillars and booths tarpon and barracuda on the walls murals of Neptune and his court including an outsize animated picture of a mermaid ballet quite an eye catcher But the broad quartz windows showed merely a shifting greenish blue of seawater and the only live fish visible were in an aquarium across from the bar Pacific Colony lacked the grotesque loveliness of the Florida and Cuba settlements Picture the world he s describing Imagine a world like that     **Explorations** Poul Anderson,1991-11-01 An outstanding collection of science fiction stories by one of the most respected names in the field These six classic Anderson stories involve interplanetary or interstellar voyages of discovery The real strength of the book is Anderson s genius for the novella and novelette forms Booklist     **The Best of Poul Anderson** Poul Anderson,1976     The Worlds of Poul Anderson Poul Anderson,1978     **Multiverse: Exploring the Worlds of Poul Anderson** Greg Bear,Gardner Dozois,2015-05-16 Poul Anderson was one of the seminal figures of 20th century science fiction Named a Grand Master by the SFWA in 1997 he produced an enormous body of stand alone novels Brain Wave Tau Zero and series fiction Time Patrol the Dominic Flandry books and was equally at home in the fields of heroic fantasy and hard SF He was a meticulous craftsman and a gifted storyteller and the impact of his finest work continues undiminished to this day Here is a rousing all original anthology that stands both as a significant achievement in its own right and a heartfelt tribute to a remarkable writerand equally remarkable man A nicely balanced mixture of fiction and reminiscence this volume contains

thirteen stories and novellas by some of today's finest writers along with moving reflections by among others Anderson's wife Karen his daughter Astrid Anderson Bear and his son in law novelist and co editor Greg Bear Bear's introduction My Friend Poul is particularly illuminating and insightful The fictional contributions comprise a kaleidoscopic array of imaginative responses to Anderson's many and varied fictional worlds A few of the highlights include Nancy Kress's Outmoded Things and Terry Brooks The Fey of Cloudmoor stories inspired by the Hugo Award winning The Queen of Air and Darkness a pair of truly wonderful Time Patrol stories A Slip in Time by S M Stirling and Christmas in Gondwanaland by Robert Silverberg Raymond E Feist's Dominic Flandry adventure A Candle and a pair of very different homages to the classic fantasy novel \_Three Hearts and Three Lions The Man Who Came Late by Harry Turtledove and Three Lilies and Three Leopards And a Participation Ribbon in Science by Tad Williams These stories together with singular contributions by such significant figures as Larry Niven Gregory Benford and Eric Flint add up to a memorable highly personal anthology that lives up to the standards set by the late and indisputably great Poul Anderson At the publisher's request this title is sold without DRM Digital Rights Management

travelers This is a dynamic Anderson explores with great success over the course of the novel as fifty crewmembers settle in for the long journey together They are a highly trained team of scientists and researchers but they are also a community of individuals each trying to make a life for him or herself in space This is the background within which the action of the novel takes place Anderson carefully depicts the network of relationships linking these people before the real plot begins to unfold The voyage soon takes a unexpected and disastrous turn for the worse The ship passes through a small uncharted cloudlike nebula that makes it impossible for the crew to decelerate the ship The only hope in fact is for the ship to speed up But acceleration towards the speed of light means that time outside the spaceship passes even more quickly and the crew finds itself hurtling deeper into space and further into the future
