 Region Near East Near Orient grade 1 0 University of Windsor Faculty of History course Introduction to the Arab culture
 language English abstract Violent religious extremism is to be found nearly everywhere in human history Yet it seems today
 as if the Arab world and most lately Syria would be the hub of religiously motivated terrorist activities But where do these
 movements come from What are their roots The key assumption of this paper is that the origin of religious extremism but not
 necessarily religious extremism itself is to seek in the rise of political Islam in the middle of the 20th century Therefore the
 central question to answering the questions above is How could a constructive force like the political Islam lay the
 foundations for such a destructive force as is Islamist terrorism **The Origins of the Druze People and Religion** Philip

The United States and the Origins of the Cold War, 1941-1947 John Lewis Gaddis, 2000 This book moves beyond
 the focus on economic considerations that was central to the work of New Left historians examining the many other forces
