Taking Learning To Task

Terry C. Jones

Taking Learning To Task:

Taking Learning to Task Jane Vella, 2000-07-25 Reading this wonderful book is like having Jane Vella at your side. She gives us the courage to risk changing our established habits of teaching. Clifford Baden, director of programs for professional education at Harvard University, says, "By marrying theory and practice, Vella has shown how to design learning that takes hold of the learner's mind, heart, and muscles." Jack McCall, professor and Principal Executive Program at the University of North Carolina at Chapel Hill, says, "You'll feel as though you've found the keys to creating profound and powerfully effective learning experiences. Anyone responsible for engaging a group of adults in learning will find this book invaluable." Rod Brooks, vice president for administration at EXPLORIS, says, "Known for her work in popular education and her worldwide teaching experience, Jane Vella has significantly changed the way we view adult learning. In her three bestselling books, *Learning to Listen*, *Learning to Teach*, and *Training Through Dialogue*, and *How Do They Know They Know*, she writes with one basic assumption: that learning is most effective when teachers involve their students in the learning process. In *Taking Learning to Task*, Vella shifts the spotlight from teaching tasks to learning tasks. Unlike traditional teaching methods, learning tasks are open questions leading to open dialogue between teacher and learner. To illustrate this unique approach, Vella provides seven steps to planning learning-centered courses, four types of learning tasks, a checklist of principles and practices, critical questions for instructional design, key components for evaluation, and other tools. She also shares real-world examples of successful learning programs, including online and distance learning courses. *Taking Learning to Task* is a hands-on, practical guide to designing effective learning tasks for diverse learners and diverse content. Teachers, trainers, and all types of instructors will find a wealth of advice for refining their day-to-day practice." [Blueprints for Course Design](#) Jennifer L. Booth, John D. Harvey, Melina W.

Rabon, 2025-11-04 *Blueprints for Course Design* incorporates multiple elements of educational theory and practice to create a comprehensive set of blueprints for the design, planning, and delivery of courses. It challenges educators in a variety of disciplines to understand, appreciate, and adopt a learning-centered approach to higher education that focuses on learners and helps them achieve measurable growth in content, character, and competence. The ultimate goal is to nurture holistic transformation in the lives of individuals who participate in the process of learning. *On Teaching and Learning* Jane Vella, 2014-07-17 *On Teaching and Learning* takes the ideas explored in renowned educator Jane Vella's best-selling book *Learning to Listen, Learning to Teach* to the next level and explores how dialogue education has been applied in educational settings around the world. Throughout the book, she shows how to put the principles and practices of dialogue education into action and uses illustrative stories and examples from her extensive travels. Dialogue education values inquiry, integrity, and commitment to equity values that are also central to democracy. Learners are treated as beings worthy of respect, recognized for the knowledge and experience they bring to the learning experience. Dialogue education emphasizes the importance of safety and belonging. It is an approach that welcomes one's certainties and one's questions. [Innovative](#)

Approaches to Religious Education Bernhard Grümme, Manfred L. Pirner, 2025-07-16 A superb collection of contemporary research on German language religious education Professor Julian Stern Bishop Grosseteste University Lincoln UK Although specific contexts differ between and within countries the issues and challenges regarding religious education in schools are essentially the same worldwide It is therefore very valuable and relevant that this volume makes the rich insights and approaches to religious education developed and brought together by German scholars available to a wider audience Professor Gerdien Bertram Troost Vrije Universiteit Amsterdam The Netherlands This volume can function as a toolkit for teachers aiming to equip the younger generations with skills and competences needed in navigating their paths to good life Professor Arniika Kuusisto Faculty of Educational Sciences University of Helsinki Finland These reflections speak directly to the difficulties of teaching religious education both in Germany and internationally Professor Robyn Horner School of Theology Australian Catholic University

Teach for Authentic Engagement Lauren Porosoff, 2023-07-24 Finding meaning vitality and community is the purpose of engagement and school itself Authentic engagement is a choice students make every day to bring themselves to their learning work and relationships rather than simply go through the motions of school It means sharing experiences asking questions trying new things making mistakes and allowing themselves to be seen heard and cared for It is an active choice that can lead to tremendous growth and satisfaction In Teach for Authentic Engagement Lauren Porosoff shows how to design instruction that lets students with diverse interests strengths needs identities and values connect to their learning Included are strategies tools and classroom anecdotes that help students Engage with the content so it becomes a source of meaning in their lives Engage with their work so it becomes a source of vitality Engage with each other so the class becomes a source of community It takes intellectual and emotional effort to teach in a way that fosters authentic engagement But when students feel connected to the content they engage with their work And when they feel like their learning matters they use that learning to understand and respect each other
