along with incorporating healthy and locally sourced food The book includes a lively third person narrative telling the story of how the Common Good Soup Kitchen was created the authors unique cooking philosophy some of their most popular soup and salad recipes and a full appendix with resources and a sample grant application for others interested in starting their own soup kitchen Today access to whole foods local organic foods and sustainable fisheries is more important than ever for our well being But because of economic inequities good whole food is once again hard to get Organic foods are largely available to the wealthiest and most privileged among us Let us break down the bastions and make natural whole food including organically based soups for everyone from chapter 2 The Soup Manifesto
