Relajación, masajes y técnicas José Manuel Gidon, Conocer cómo relajarnos mejora nuestra calidad de vida ya que nos permite liberar la tensión física y mental que acumulamos. De esta forma, se podrá recuperar los niveles de energía y nos sentiremos renovados y revitalizados en mejores condiciones para hacer frente a las presiones de la vida cotidiana. La ciencia médica reconoce que la mente y el cuerpo están íntimamente ligados, afectando el estado de uno al otro. El estrés es el que reduce la resistencia del sistema inmunológico del cuerpo humano y es una mente relajada la que colabora para fortalecer las defensas contra todo tipo de enfermedades. De igual forma, un físico relajado obtiene una mayor paz mental y espiritual. Este libro nos explica a través de distintos masajes y técnicas la manera de lograr una buena relajación y de esta manera poder disfrutar de una vida más plena.

EL MASAJE DEPORTIVO Anatolik Andreewicz Biriukov, 2007-06-14. El masaje es un importante método terapéutico y un medio eficaz de entrenamiento que adquiere cada vez más importancia tanto en el ámbito de la educación física como en el campo del deporte de alto rendimiento. Uno de los medios más eficaces para recuperar e incrementar la capacidad de trabajo de los deportistas y para la rehabilitación de las lesiones y enfermedades que conlleva el deporte es el masaje. Este libro no está dirigido solamente a los deportistas, sino también a entrenadores, profesores de Educación Física, médicos, fisioterapeutas y masajistas. Contiene una serie de nuevas informaciones teóricas y prácticas referentes a la técnica de los métodos y a las metodologías parciales del masaje. Esta obra contiene además suplementos y variaciones basados en un amplio material experimental. Se ha precisado y complementado la técnica de los métodos de masaje, se ha descrito con todos los pormenores la metodología de la ejecución. Se ha reservado un lugar especial a la clasificación del masaje y en particular a los distintos tipos del mismo. El autor intenta aquí revelar las cuestiones más importantes de la teoría y de la práctica del masaje dentro del marco de las exigencias y tendencias actuales de la educación física.

sica Ha intentado exponer tema material lo más simple y a veces esquemáticamente posible para permitir una buena asimilación de los métodos no solo por parte de aquellos que ya tienen nociones sino para los estudiantes de Educación Física y aquellos deportistas y entrenadores que deseen aprender por su cuenta la técnica de ejecución de un método de masaje y entender la metodología de cada sesión El autor Anatolik Andree Biriukov es catedrático en medicina del deporte y de masaje del Instituto de Educación Física de Moscú
