Decisive Moments in History Charles River Editors, 2025-05-05 Find out just what any people will quietly submit to and you have the exact measure of the injustice and wrong which will be imposed on them Frederick Douglass Our objective is complete freedom justice and equality by any means necessary Malcolm X I've seen the Promised Land I may not get there with you But I want you to know tonight that we as a people will get to the Promised Land Dr Martin Luther King Jr In the 19th century the Scottish writer Thomas Carlyle famously wrote The history of the world is but the biography of great men popularizing the Great Man theory that the course of history is shaped by a select few heroic individuals While historians and others continue to debate the accuracy of the Great Man theory of history there is no question that the course of history is permanently altered by decisive moments in time where a different result would have produced drastically different outcomes Charles River Editors Decisive Moments in History examines the events that changed history forever and set the world down the path it finds itself on today When famous political philosopher Alexis de Tocqueville toured the new United States of America he was impressed by the representative government set up by the Founders At the same time he ominously predicted If there ever are great revolutions there they will be caused by the presence of the blacks upon American soil That is to say it will not be the equality of social conditions but rather their inequality which may give rise thereto De Tocqueville was prescient because the longest battle fought in the history of the United States has been the Civil Rights Movement The framers of the Constitution

kicked the problem down the road over half a million died during the Civil War to end slavery and then many more fought and died to dismantle segregation and legalized racism in the 100 years after Today every American is taught about watershed moments in the history of minorities struggles for civil rights over the course of American history the Civil War Brown v Board of Education Rosa Parks refusal to give up her seat Dr Martin Luther King Jr s I Have a Dream speech and the passage of the Civil Rights Act of 1964 Indeed the use of the phrase Civil Rights Movement in America today almost invariably refers to the period of time from 1954 1964 However the American Civil Rights Movement actually came into existence long before it is presumed to have done so The Movement s primary work was slow evolving gradual and long term Its more glamorous moments such as the Montgomery Bus Boycott 1955 1956 the Selma to Montgomery March 1965 and the March on Washington 1963 mainly were supplemental to the all important grassroots work already going on in communities churches legislatures and courts The nascent stages of the Movement actually began far earlier among abolitionists and the the writings and activism of Frederick Douglass and others The Civil Rights Movement also included counternarratives led by activists like Malcolm X who pointed out that Brown v Board may have demanded integration but it did not implement it Insisting that politely asking the government for civil rights was futile Malcolm X represented the face of the civil rights movement that demanded stronger words and action than nonviolent protest

Decisive Moments in History The Civil Rights Movement comprehensively covers the struggle for civil rights in the United States remembering its most famous and memorable events but also highlighting its lesser known ups and downs on the path to equality Along with pictures of the important people places and events you will learn about the Civil Rights Movement like you never have before in no time at all
