how a renewed focus on the form of Thomson's long poem will result in an understanding of the processual character of *The Seasons* as a synthesizing simulacrum of various discourses and theories of composition. The volume's essays map the generic anatomy of the poem in its different incarnations. They shed light on the poet's conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of *The Seasons* as an assimilating and learned work to be read through both the works of the Classics and moderns. Contributions revisit models explaining the structural complexity of *The Seasons* proposing others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study. Swedish. The poem is furthermore contextualized in terms of sexuality and animal studies.

Resources for Making Music Inclusively with Children and Young People with Learning Difficulties Adam

Ockelford, Sophie Gray, Jon Cohen, Max Mai, 2023-03-20. This engaging practical resource sets out twelve original projects for making music inclusively with children and young people of all ages who have special abilities or needs including those with profound and multiple learning difficulties, those on the autism spectrum, those who have a vision or hearing impairment, and those with social, emotional, and mental health needs. Created by leaders in the music and special needs field working with music industry professionals, Count Me In includes projects with a wide range of musical styles and genres, and there is an accompanying website with hundreds of freely downloadable audio files. The resource is based on the Sounds of Intent framework which encourages teachers and others to target activities at their pupils and students' particular levels of musical development. The pieces of music are deconstructed into separate activities that are individually targeted at sound makers, pattern makers, motif makers, and song makers so that all young people can join in at the same time. Count Me In is a must-have resource for class teachers, teaching assistants, and other non-music specialist staff supporting children with learning difficulties in special and mainstream schools and colleges, as well as musicians from music services, music hubs, and other arts organisations who visit schools. It can be used without needing to be able to read music, though there are scores in simplified and standard notation as well as chord charts.
